

MASTERY OF HEALTH

THROUGH THIS BOOK YOU CAN LEARN HOW TO KEEP YOUR BODY IN A STAGE OF PEAK PERFORMANCE. IF YOU APPLY THESE LESSONS YOU WILL UNDOUBTEDLY NOT ONLY PROLONG YOUR LIFESPAN, BUT LIVE YOUTHFULLY, MOREOVER, HAPPILY UNTIL THE END, THE END WHICH MAY NOT COME, FOR SCIENCE WILL ADVANCE FURTHER, GRASPING IMMORTALITY, & WITH THE METHODS IN THIS BOOK, THE CHANCES ARE THAT YOU CAN LIVE TO SEE THAT! SO, STUDY THIS BOOK CAREFULLY FOR YOUR OWN UTMOST BENEFIT.

Chapter 1

BALANCE

IMPULSIVE CHANGE BRINGS
TEMPORARY CHAOS.
GRADUAL CHANGE CREATES
PERMANENT ORDER.

WILLPOWER

IMAGINE WILLPOWER AS A BAR, MUCH LIKE MANA BARS IN ROLE-PLAYING GAMES.

ITS CAPACITY DEPENDS ON YOUR OVERALL HEALTH & HABITS. EVERY TIME YOU MAKE A DECISION OR ACT CONSCIOUSLY, YOUR WILLPOWER IN THE BAR IS REDUCED. THIS IS NATURAL. IT TAKES MUCH ENERGY TO MAKE DECISIONS & SO, WE HUMANS HAVE EVOLVED TO RELY ON THE SUBCONSCIOUS.

UNDERSTANDING &
MASTERING WILLPOWER IS
SIMPLE & IT IS THE WAY TO
CREATE CHANGE. START BY
AVOIDING EVENTS & ACTS
OUTSIDE OF YOUR CURRENT
HABITS, THIS WAY YOU WILL
HOPEFULLY BE ABLE TO
PREVENT THE DEPLETION OF
YOUR WILLPOWER BAR. ONCE
YOU ARE AWARE OF YOUR
WILLPOWER LIMITS &
WORKINGS, ADD ONE DAILY
HABIT WHICH IS THE MOST
IMPORTANT TO YOUR
CONTEXT. NOT TWO OR
THREE. ONE. FOR LIFE IS
CHAOTIC & YOU WILL NEED
WILLPOWER RESERVE, IF YOU
LACK WILLPOWER WHEN AN
EVENT OCCURS, YOUR
PROGRESS WILL DIMINISH.
FOCUS ON YOUR HABIT UNTIL
IT BECOMES SUBCONSCIOUS.

Chapter 2

INTERCONNECTION

ALL IS CONNECTED. BODY &
MIND ARE ONE. ALL HABITS
AFFECT EACH OTHER,
DIRECTLY OR INDIRECTLY.

SLEEP

NUTRITION

WHAT & WHEN YOU CONSUME
AFFECTS BOTH YOUR SLEEP
ABILITY & QUALITY.

EXERCISE

WHETHER YOU EXERCISE,
HOW MUCH, WHICH KIND, &
WHEN, AFFECTS YOUR SLEEP
ABILITY & QUALITY.

TEMPERATURE

WHETHER YOUR ROOM
TEMPERATURE IS TOO LOW OR
TOO HIGH, DURING THE DAY
& NIGHT, DETERMINES
WHETHER YOU CAN ENTER
THE REM SLEEP STAGE.

AIR QUALITY

AIR VENTILATION & THE PRESENCE OF TOXINS, DUST & PLANTS AFFECTS YOUR RESPIRATORY SYSTEM, THEREFORE QUALITY OF SLEEP.

TIMING OF EXPOSURE TO LIGHT & DARKNESS AFFECTS ONE'S MELATONIN & CORTISOL LEVELS, WHICH ARE NEEDED TO REGULATE THE CIRCADIAN RHYTHM. THIS INCLUDES MANY ARTIFICIAL LIGHTS.

READING

READING CALMS THE MIND & BODY, THEREFORE POSITIVELY AFFECTS SLEEP IF DONE BEFORE BED TIME.

MEDITATION

CLEARING YOUR MIND THROUGH MEDITATION CAN HELP YOU MANAGE STRESS & HYPERACTIVE THOUGHTS, THEREFORE IMPROVE SLEEP.

BREATHWORK

THE BODY AUTOMATICALLY ENTERS A CERTAIN BREATHING STATE WHEN SLEEPING. DOING SO MANUALLY WILL SPEED UP THE TIME IT TAKES TO FALL ASLEEP. ALSO, USING CERTAIN BREATHING TECHNIQUES PRIOR TO BED TIME CAN DISRUPT SLEEP.

MINDSTANCES

CERTAIN MINDSTANCES CAN MAKE ONE MORE PRESENT & CALM, WHILST OTHERS CAN BE DISRUPTIVE.

TEMPERATE ASCETISM

HAVING AN ORGANIZED ENVIRONMENT FREE OF CLUTTER MAKES YOU CALMER, LESS STRESSED, WHICH IMPACTS SLEEP.

COMPANIONSHIP

SOCIAL INTERACTIONS MAKE YOU CREATE DOPAMINE & ADRENALINE. THESE CAN NEGATIVELY IMPACT SLEEP IF DONE DURING THE NIGHT, BUT CAN BOOST SLEEP QUALITY IF DONE DURING THE DAY.

EXERCISE

WALKING AFTER EATING A MEAL IMPROVES DIGESTION.

TEMPERATURE

HIGH TEMPERATURE CAN TAKE AWAY PROCESSING POWER WHICH WOULD OTHERWISE BE USED TO DIGEST FOOD, WHILST LOW TEMPERATURE REQUIRES LESS ENERGY TO DISTRIBUTE.

AIR QUALITY

OXYGEN IS NECESSARY FOR BRAIN & OTHER ORGAN FUNCTIONS. REDUCING OR IMPROVING AIR QUALITY AFFECTS DIGESTION & PLANT GROWTH.

SUNLIGHT

WHILST SUNLIGHT HAS NO DIRECT AFFECT ON NUTRITION (BESIDES VITAMIN D), IT AFFECTS OTHER SYSTEMS WHICH AFFECT NUTRITION.

MEDITATION

MEDITATION AFFECTS STRESS
& SELF CONTROL, THEREFORE
NUTRITION.

BREATHWORK

BREATHING EXERCISES CAN
BE USED TO CALM YOURSELF
& BE AWARE OF THE
MESSAGES YOUR BODY, OR
GUT, ARE SENDING YOU.
BESIDES THAT & STRESS
MANAGEMENT, BREATHWORK
AFFECTS OTHER SYSTEMS
WHICH ALSO AFFECT
NUTRITION.

MINDSTANCES

MINDSTANCES HAVE NO
DIRECT EFFECT ON

Chapter 3

SLEEP

REST IS ESSENTIAL. SYSTEMS
IN YOUR BODY OTHERWISE
DIE, DISEASES SPREAD,
FUNCTIONS CEASE TO BE.
SLEEP IS NECESSARY.

STAGES OF SLEEP

SLEEP IS DIVIDED BY TWO:
NON-RAPID EYE MOVEMENT
SLEEP, & THE LAST STAGE:
RAPID EYE MOVEMENT SLEEP.

STAGE 1

THIS IS THE TRANSITION
BETWEEN WAKEFULNESS AND
SLEEP. IT IS A LIGHT SLEEP
STAGE WHICH LASTS ONLY A
FEW MINUTES. DURING THIS
STAGE, YOUR EYES MOVE
SLOWLY, AND YOUR MUSCLE
ACTIVITY STARTS TO
DECREASE.

STAGE 2

THIS STAGE REPRESENTS THE BEGINNING OF TRUE SLEEP.

IT INVOLVES A DEEPER RELAXATION OF THE BODY, DECREASE IN HEART RATE, & A DROP IN BODY TEMPERATURE. BRAIN ACTIVITY SLOWS DOWN WITH OCCASIONAL BURSTS OF RAPID BRAIN WAVES CALLED SLEEP SPINDLES & K-COMPLEXES.

STAGE 3

ALSO KNOWN AS SLOW-WAVE SLEEP (SWS) OR DEEP SLEEP, THIS STAGE IS ESSENTIAL FOR PHYSICAL AND MENTAL RESTORATION.

IT IS CHARACTERIZED BY THE
PRESENCE OF DELTA BRAIN
WAVES, WHICH ARE SLOW &
HIGH-AMPLITUDE.

DURING THIS STAGE, BLOOD
PRESSURE DROPS, BREATHING
SLOWS DOWN, AND THE BODY
ENTERS ITS MOST
RESTORATIVE PHASE.

STAGE 4

THIS STAGE IS OFTEN
COMBINED WITH STAGE 3 & IS
ALSO CONSIDERED A PART OF
SLOW-WAVE SLEEP (SWS). IT
IS THE DEEPEST & MOST
RESTORATIVE STAGE OF
SLEEP. DURING THIS STAGE,
THE BRAIN MAINLY PRODUCES
DELTA WAVES, AND IT IS
DIFFICULT TO AWAKEN
SOMEONE FROM THIS STATE.

DELTA WAVES

DELTA WAVES DURING SLEEP
STAGE FOUR AFFECT THE
FOLLOWING:

PHYSICAL RESTORATION

HORMONES ARE RELEASED
DURING THIS STAGE TO
SUPPORT TISSUE REPAIR,
MUSCLE GROWTH, & OVERALL
PHYSICAL RECOVERY.

IMMUNE SYSTEM SUPPORT

STAGE 4 SLEEP PLAYS A VITAL
ROLE IN BOLSTERING THE
IMMUNE SYSTEM. IT HELPS
THE BODY FIGHT OFF
INFECTIONS & ILLNESSES
MORE EFFECTIVELY.

MEMORY CONSOLIDATION

THE BRAIN ORGANIZES & SOLIDIFIES MEMORIES, TRANSFERRING THEM FROM SHORT-TERM TO LONG-TERM STORAGE.

GROWTH & DEVELOPMENT

DEEP SLEEP IS VITAL FOR GROWTH & DEVELOPMENT, AS GROWTH HORMONES ARE RELEASED DURING THIS STAGE.

EMOTIONAL REGULATION

RESETING EMOTIONAL CIRCUITS, INCREASED COMMUNICATION BETWEEN EMOTIONAL REGIONS IN THE BRAIN, REDUCTION OF CORTISOL (STRESS HORMONE).

STAGE 5

RAPID EYE MOVEMENT SLEEP IS A UNIQUE STAGE WHERE MOST DREAMING OCCURS. DURING THIS STAGE, THE BRAIN BECOMES HIGHLY ACTIVE, SIMILAR TO WAKEFULNESS.

HOWEVER, THE BODY EXPERIENCES MUSCLE PARALYSIS, KNOWN AS REM ATONIA, TO PREVENT ACTING OUT DREAMS.

(SLEEP-WALKING)

BRAIN ACTIVITY

DURING RAPID EYE MOVEMENT SLEEP, THE BRAIN BECOMES HIGHLY ACTIVE, SIMILAR TO WAKEFULNESS. HOWEVER, THE MUSCLES IN THE BODY EXPERIENCE TEMPORARY PARALYSIS (KNOWN AS REM ATONIA), PREVENTING THE INDIVIDUAL FROM PHYSICALLY ACTING OUT THEIR DREAMS. THIS PARALYSIS IS LIKELY A PROTECTIVE MECHANISM TO PREVENT INJURY DURING SLEEP.

VIVID DREAMS

MOST DREAMING OCCURS DURING REM SLEEP.

DREAMS EXPERIENCED
DURING THIS STAGE ARE
OFTEN MORE VIVID,
EMOTIONAL, & MEMORABLE
COMPARED TO THOSE DURING
NREM SLEEP. RAPID EYE
MOVEMENT DREAMS MAY
INVOLVE COMPLEX
NARRATIVES & VIVID
SENSORY EXPERIENCES.

MEMORY CONSOLIDATION

RAPID EYE MOVEMENT SLEEP
IS THOUGHT TO PLAY A
CRUCIAL ROLE IN MEMORY
CONSOLIDATION,

PARTICULARLY FOR
PROCEDURAL & EMOTIONAL
MEMORIES. IT HELPS
PROCESS & INTEGRATE
INFORMATION FROM THE
DAY'S EXPERIENCES, LEADING
TO IMPROVED LEARNING &
MEMORY RETENTION, JUST
LIKE DELTA WAVES DURING
SLEEP STAGE 4.

EMOTIONAL PROCESSING

DREAMS DURING THIS STAGE
MAY ALLOW INDIVIDUALS TO
EXPLORE & PROCESS
EMOTIONAL EXPERIENCES,
POTENTIALLY CONTRIBUTING
TO EMOTIONAL WELL-BEING
& COPING MECHANISMS.

BRAIN DEVELOPMENT

FOR INFANTS & NEWBORNS,
REM SLEEP CONSTITUTES A
SIGNIFICANT PORTION OF
THEIR SLEEP.

IT IS BELIEVED TO BE
IMPORTANT FOR BRAIN
DEVELOPMENT & THE
MATURATION OF NEURAL
CIRCUITS.

SLEEP CYCLES

THE SLEEP CYCLE CONSISTS
OF MULTIPLE CYCLES OF
NREM & REM SLEEP. EACH
TYPICALLY LAST 90 TO 110
MINUTES.

GRADUALLY AS THE NIGHT PROGRESSES, THE DURATION OF RAPID EYE MOVEMENT SLEEP INCREASES, WHILST THE DURATION OF DEEP NREM SLEEP (STAGE 3 & 4) DECREASES.

REM REBOUND

IF SOMEONE IS DEPRIVED OF REM SLEEP ON A GIVEN NIGHT, THEY ARE LIKELY TO EXPERIENCE REM REBOUND ON SUBSEQUENT NIGHTS.

THIS MEANS THEY WILL SPEND MORE TIME IN REM SLEEP TO COMPENSATE FOR THE DEPRIVATION. IN ONE WAY, THIS IS A POSITIVE MATTER, AS IT HELPS YOU HEAL. IN ANOTHER, IT IS NEGATIVE, AS IT TAKES UP TIME FOR OTHER SLEEP STAGES.

REM SLEEP DISORDERS

SOME SLEEP DISORDERS ARE ASSOCIATED WITH DISRUPTIONS IN REM SLEEP. FOR EXAMPLE, REM SLEEP BEHAVIOR DISORDER (RBD) IS A CONDITION WHERE THE MUSCLES REMAIN ACTIVE DURING REM SLEEP, LEADING TO SLEEP-WALKING, OR UNCONSCIOUS BODY USE.

AMOUNT OF SLEEP

WHILST IT IS COMMONLY
BELIEVED THAT THE AMOUNT
OF SLEEP VARIES, DEPENDING
ON THE INDIVIDUAL, NOBODY
REALLY KNOWS WHY.

I DO. IT IS A SIMPLE THEORY,
WE ALL HAVE DIFFERENT
ACTIVITIES & HABITS WHICH
DRAIN US IN DIFFERENT
WAYS. WE EAT DIFFERENT
FOODS, WHICH HEAL US OR
HARM US IN DIFFERENT
WAYS. THIS ALL PLAYS A ROLE
IN THE AMOUNT OF SLEEP
YOU NEED, OR CAN ACHIEVE.
TO ENTER REM SLEEP, YOU
NEED AT LEAST SEVEN
HOURS.

I ADVISE SLEEPING FOR AT
LEAST NINE, TO GIVE YOUR
BODY ENOUGH TIME TO DO
WHAT IT NEEDS TO. IF YOU
HAVE NOT YET REACHED
BIOLOGICAL ADULTHOOD
(AGE 24-25 FOR HUMANS), YOU
SHOULD TRY TO GET ELEVEN
HOURS OF SLEEP. IT IS WELL
DOCUMENTED BY NOW, IN
SCIENTIFIC CIRCLES, THAT IF
YOU ARE GROWING &
DEVELOPING, YOU NEED
MORE SLEEP. OPTIMALY, TO
STRIVE TOWARDS QUALITY
OVER QUANITY OF OUR
TIME & ABILITIES, TRY TO
SLEEP FOR 11 HOURS EVEN
PAST THE GROWING AGES. WE
NEVER TRULY STOP
DEVELOPING, UNLESS WE
CHOOSE TO. SLEEP HELPS US
BY ALLOWING US TO HEAL,
PROCESS & UNDERSTAND
WHAT & HOW WE LEARN.

PROBLEM-SOLVING

SLEEP SIGNIFICANTLY
INFLUENCES PROBLEM-
SOLVING ABILITY &
COGNITIVE FUNCTIONING.
HERE IS HOW SLEEP CAN
IMPACT PROBLEM-SOLVING:

MEMORY CONSOLIDATION

DURING REM SLEEP & DEEP
NREM SLEEP (STAGE 3 AND 4),
THE BRAIN CONSOLIDATES &
ORGANIZES MEMORIES. THIS
PROCESS HELPS TO TRANSFER
INFORMATION FROM SHORT-
TERM TO LONG-TERM
MEMORY, MAKING IT EASIER
TO RETRIEVE & USE THAT
INFORMATION WHEN
PROBLEM-SOLVING.

CREATIVITY

SLEEP CAN ENHANCE CREATIVITY & INSIGHT. STUDIES HAVE SHOWN THAT A WELL-RESTED BRAIN IS MORE CAPABLE OF MAKING NOVEL CONNECTIONS & SOLVING PROBLEMS IN INNOVATIVE WAYS. SLEEP ALLOWS THE BRAIN TO MAKE NEW ASSOCIATIONS & ACCESS A BROADER RANGE OF INFORMATION, WHICH CAN LEAD TO CREATIVE PROBLEM-SOLVING.

COGNITIVE FLEXIBILITY

ADEQUATE SLEEP IMPROVES COGNITIVE FLEXIBILITY, THE ABILITY TO SWITCH BETWEEN DIFFERENT TASKS, & CONSIDER MULTIPLE SOLUTIONS TO A PROBLEM.

A WELL-RESTED MIND IS
MORE ADAPTABLE & BETTER
AT OVERCOMING MENTAL
RIGIDITY,
LEADING TO BETTER
PROBLEM-SOLVING.

DECISION-MAKING

SLEEP PLAYS A ROLE IN
EXECUTIVE FUNCTIONS,
INCLUDING DECISION-
MAKING. WHEN WELL-
RESTED, INDIVIDUALS TEND
TO MAKE BETTER DECISIONS
& CONSIDER THE POTENTIAL
CONSEQUENCES MORE
EFFECTIVELY.

SLEEP DEPRIVATION CAN
IMPAIR JUDGMENT & LEAD TO
IMPULSIVE DECISION-
MAKING.

ATTENTION & CONCENTRATION

SLEEP IS ESSENTIAL FOR
MAINTAINING FOCUS,
ATTENTION, & SUSTAINED
CONCENTRATION.

A LACK OF SLEEP CAN LEAD
TO A DECREASED ATTENTION
SPAN & A REDUCED ABILITY
TO CONCENTRATE,
NEGATIVELY AFFECTING
PROBLEM-SOLVING TASKS
WHICH REQUIRE SUSTAINED
MENTAL EFFORT.

PROBLEM REPRESENTATION

SLEEP CAN HELP IN FORMING
A CLEAR MENTAL
REPRESENTATION OF A
PROBLEM.

WHEN CONFRONTED WITH A COMPLEX PROBLEM, A WELL-RESTED BRAIN IS MORE LIKELY TO COMPREHEND THE DIFFERENT COMPONENTS OF THE PROBLEM & ORGANIZE THEM IN A MEANINGFUL WAY.

EMOTIONAL REGULATION

SLEEP ALSO IMPACTS EMOTIONAL REGULATION, & EMOTIONAL STATES CAN INFLUENCE ONE'S PROBLEM-SOLVING ABILITY.

WHEN WELL-RESTED, INDIVIDUALS ARE BETTER EQUIPPED TO APPROACH PROBLEM-SOLVING TASKS WITH A CALM & FOCUSED MINDSET.

LIFE EXPECTANCY

SLEEP PLAYS A SIGNIFICANT ROLE IN OVERALL HEALTH, & ITS IMPACT ON LIFE EXPECTANCY IS WELL-DOCUMENTED. SEVERAL STUDIES HAVE SHOWN THAT INSUFFICIENT SLEEP CAN HAVE ADVERSE EFFECTS ON LONGEVITY. HERE ARE SOME WAYS IN WHICH SLEEP CAN IMPACT LIFE EXPECTANCY:

CARDIOVASCULAR HEALTH

POOR SLEEP HABITS ARE ASSOCIATED WITH AN INCREASED RISK OF CARDIOVASCULAR DISEASES,

INCLUDING HYPERTENSION,
HEART DISEASE, & STROKE.
CONSISTENT LACK OF SLEEP
CAN STRAIN THE
CARDIOVASCULAR SYSTEM &
LEAD TO LONG-TERM HEALTH
ISSUES, WHICH MAY REDUCE
LIFE EXPECTANCY.

IMMUNE FUNCTION

SLEEP IS ESSENTIAL FOR A
WELL-FUNCTIONING IMMUNE
SYSTEM. DURING SLEEP, THE
BODY PRODUCES & RELEASES
CYTOKINES & OTHER IMMUNE
CELLS WHICH HELP FIGHT
OFF INFECTIONS & DISEASES.
CHRONIC SLEEP DEPRIVATION
WEAKENS THE IMMUNE
SYSTEM, MAKING
INDIVIDUALS SUSCEPTIBLE
TO ILLNESSES & INFECTIONS,
WHICH AFFECTS OVERALL
HEALTH & LIFE EXPECTANCY.

METABOLIC HEALTH

LACK OF SLEEP HAS BEEN LINKED TO INSULIN RESISTANCE, OBESITY, & METABOLIC DISORDERS. POOR SLEEP CAN DISRUPT THE BALANCE OF HUNGER REGULATING HORMONES; LEPTIN & GHRELIN, LEADING TO OVEREATING, WHICH CAN IN TURN, PREVENT SLEEP, AS WELL AS GAINAGE OF WEIGHT (UNLESS YOU FOLLOW THE DIETARY RECOMMENDATION IN THIS BOOK). THESE FACTORS CONTRIBUTE TO AN INCREASED RISK OF DEVELOPING DIABETES & OTHER METABOLIC CONDITIONS, WHICH CAN IMPACT LIFE EXPECTANCY.

COGNITIVE DECLINE

INADEQUATE SLEEP HAS BEEN ASSOCIATED WITH COGNITIVE DECLINE & AN INCREASED RISK OF NEURODEGENERATIVE DISEASES SUCH AS **ALZHEIMER'S DISEASE**.

CHRONIC SLEEP DEPRIVATION AFFECTS MEMORY, ATTENTION, & COGNITIVE FUNCTION, INFLUENCING QUALITY OF LIFE & LONGEVITY.

ACCIDENTS & INJURIES

SLEEP DEPRIVATION IMPAIRS JUDGMENT, REACTION TIME, & MOTOR SKILLS, LEADING TO AN INCREASED RISK OF ACCIDENTS & INJURIES.

MENTAL HEALTH

POOR SLEEP IS LINKED TO AN INCREASED RISK OF MOOD DISORDERS, SUCH AS DEPRESSION & ANXIETY. THIS IS MAINLY BECAUSE OF AN INCREASE IN CORTISOL LEVELS, (THE STRESS HORMONE).

CHRONIC SLEEP PROBLEMS CAN NEGATIVELY IMPACT MENTAL HEALTH, AFFECTING A PERSON'S OVERALL WELL-BEING & THEREFORE REDUCING LIFE EXPECTANCY.

INFLAMMATION & CELLULAR REPAIR

SLEEP IS ESSENTIAL FOR REDUCING INFLAMMATION & SUPPORTING CELLULAR REPAIR PROCESSES IN THE BODY. ADEQUATE SLEEP HELPS THE BODY RECOVER FROM DAILY WEAR & TEAR, WHILST CHRONIC SLEEP DEPRIVATION CAN LEAD TO INCREASED INFLAMMATION & CELLULAR DAMAGE, WHICH IMPACTS OVERALL HEALTH & LONGEVITY. FOR EXAMPLE, LACK OF SKIN REGENERATION MEANS LACK OF PROTECTION AGAINST MANY DISEASES.

Chapter 4

EXERCISE

IT IS ONLY DIFFICULT UNTIL
IT IS NOT. THEN, IT IS
BEAUTIFUL, THRILLING.
IT IS SAD TO NOT KNOW THE
MAJESTIC CAPABILITIES OF
YOUR OWN BODY.

CARDIOVASCULAR SYSTEM

ALSO KNOWN AS THE CIRCULATORY SYSTEM, IS A COMPLEX NETWORK OF ORGANS & BLOOD VESSELS RESPONSIBLE FOR TRANSPORTING BLOOD, NUTRIENTS, OXYGEN, & WASTE PRODUCTS THROUGHOUT THE BODY. IT PLAYS A VITAL ROLE IN MAINTAINING THE OVERALL HEALTH & FUNCTIONING OF THE BODY. THE FOLLOWING IS A LIST OF THE CARDIOVASCULAR SYSTEM'S FUNCTIONS:

HEART

THE HEART IS THE CENTRAL
ORGAN OF THE
CARDIOVASCULAR SYSTEM.

IT IS A MUSCULAR PUMP
WHICH CONTRACTS &
RELAXES RHYTHMICALLY TO
CIRCULATE BLOOD

THROUGHOUT THE BODY.

THE HEART HAS FOUR
CHAMBERS: TWO ATRIA
(UPPER CHAMBERS) & TWO
VENTRICLES (LOWER
CHAMBERS).

IT RECEIVES BLOOD FROM
THE BODY & PUMPS IT TO THE
LUNGS FOR OXYGENATION &
THEN RECEIVES OXYGENATED
BLOOD FROM THE LUNGS &
PUMPS IT OUT TO THE REST
OF THE BODY.

BLOOD VESSELS

BLOOD VESSELS FORM A NETWORK OF TUBES WHICH TRANSPORT BLOOD TO & FROM THE HEART & VARIOUS BODY TISSUES. THERE ARE THREE TYPES OF BLOOD VESSELS: ARTERIES, VEINS, & CAPILLARIES.

ARTERIES: CARRY OXYGENATED BLOOD AWAY FROM THE HEART & DISTRIBUTE IT TO VARIOUS TISSUES & ORGANS. THEY HAVE THICK, MUSCULAR WALLS TO WITHSTAND THE PRESSURE GENERATED BY THE HEART'S PUMPING ACTION.

VEINS: TRANSPORT
DEOXYGENATED BLOOD BACK
TO THE HEART. THEY HAVE
THINNER WALLS & CONTAIN
VALVES WHICH PREVENT
BLOOD FROM FLOWING
BACKWARD.

CAPILLARIES: ARE TINY,
THIN-WALLED VESSELS
WHICH CONNECT ARTERIES &
VEINS. THEY FACILITATE THE
EXCHANGE OF NUTRIENTS,
OXYGEN, & WASTE PRODUCTS
BETWEEN THE BLOOD & BODY
TISSUES.

BLOOD

BLOOD IS THE FLUID MEDIUM
WHICH CIRCULATES
THROUGHOUT THE
CARDIOVASCULAR SYSTEM.

IT IS COMPOSED OF PLASMA
(A LIQUID PORTION), RED
BLOOD CELLS
(ERYTHROCYTES) WHICH
CARRY OXYGEN, WHITE
BLOOD CELLS (LEUKOCYTES)
WHICH PLAY A ROLE IN THE
IMMUNE RESPONSE, &
PLATELETS WHICH ARE
INVOLVED IN BLOOD
CLOTTING.

FUNCTIONS OF THE CARDIOVASCULAR SYSTEM:

TRANSPORTATION

THE CARDIOVASCULAR SYSTEM TRANSPORTS OXYGEN, NUTRIENTS, HORMONES, & IMMUNE CELLS TO VARIOUS TISSUES & ORGANS. IT ALSO CARRIES WASTE PRODUCTS, SUCH AS CARBON DIOXIDE, AWAY FROM TISSUES FOR ELIMINATION.

OXYGENATION

THE LUNGS OXYGENATE THE BLOOD, & THE HEART PUMPS OXYGENATED BLOOD TO DELIVER OXYGEN TO ALL BODY CELLS FOR CELLULAR RESPIRATION.

THERMOREGULATION

BLOOD FLOW HELPS REGULATE BODY TEMPERATURE. WHEN THE BODY IS TOO WARM, BLOOD VESSELS DILATE TO INCREASE BLOOD FLOW TO THE SKIN, RELEASING HEAT. WHEN THE BODY IS TOO COLD, BLOOD VESSELS CONSTRICT TO REDUCE HEAT LOSS.

IMMUNE RESPONSE

THE CARDIOVASCULAR SYSTEM FACILITATES THE TRANSPORT OF IMMUNE CELLS & ANTIBODIES TO FIGHT INFECTIONS AND FOREIGN INVADERS.

BLOOD CLOTTING

THE FORMATION OF BLOOD
CLOTS HELPS STOP BLEEDING
& PROMOTES WOUND
HEALING.

NOW THAT YOU ARE AWARE
OF THE IMPORTANCE &
FUNCTIONS OF THE
CARDIOVASCULAR SYSTEM,
CERTAINLY YOU WISH TO
KEEP YOURS HEALTHY &
OPTIMAL. TO DO SO, SIMPLY
RUN REGULARLY. RUNNING IS
ONLY DIFFICULT IN THE
BEGINNING, GRADUALLY
INCREASE IT. & DO NOT FEAR.
I WILL PROVIDE PLENTY OF
ADVICE FOR THIS. THOUGH
KNOW THAT OTHER FACTORS
IMPACT THE
CARDIOVASCULAR SYSTEM;
DIET, SLEEP & ADDICTIONS.

HOW TO RUN

Elodin Istina
@Edaryion

I used to be an extreme athlete, & a part of that was running. I had trained both competitively, & personally. The latter surprisingly taught me more.

DISTANCE

SET A STARTING DISTANCE FOR YOURSELF. CHOOSE TYPES OF LANDMARKS TO GO BY, & EVERY MORNING, RUN ONE LANDMARK FURTHER. THIS COULD BE HOUSES, OR SIGN POSTS, OR TREES.

FOOTING

DUE TO CULTURAL
CONDITIONING, MOST
HUMANS, AT LEAST IN THE
WESTERN WORLD, ARE
TAUGHT TO WALK & RUN
ANATOMICALLY
INCORRECTLY.
WHEN WE HIT THE GROUND
HEEL FIRST, WE PUT
IMMENSE IMPACT ON OUR
KNEES. OUR KNEES TAKE ALL
OF THAT DAMAGE. THIS IS
INEFFICIENT, WE HAVE
EVOLVED, LIKE ALL OTHER
MAMMALS TO BE ABLE TO
DISTRIBUTE THE IMPACT TO
THE ENTIRE LEG. WE DO
THIS, BY STEPPING WITH OUR
FRONT PART OF THE FOOT
FIRST. THIS MAY FEEL
IMPOSSIBLE OR WEIRD TO
YOU, UNDERSTANDABLY SO.

YOUR ENTIRE LIFE, YOU HAVE BEEN WALKING A CERTAIN WAY. OF COURSE IT WOULD FEEL WRONG OR UNNATURAL TO CHANGE THAT. ALAS, THIS IS NATURAL. & IT WILL ONLY TAKE YOU A FEW MONTHS TO FEEL COMFORTABLE WALKING THIS WAY. ASSUMING YOU WALK OR RUN DAILY.

THIS IS IMPORTANT, BECAUSE IF YOUR KNEES ARE NOT TAKING DAMAGE, IF THEY ARE DURABLE, YOU CAN WALK & RUN MUCH LONGER, WITHOUT PAIN OR FEAR OF DAMAGE. YOU CAN LEAP, & JUMP, SQUAT & LIFT.

BREATHING

BY VARIOUS RUNNERS & TRAINERS, I WAS TOLD WAYS TO REGULATE BREATHING DURING RUNNING. NONE OF WHICH WERE CORRECT.

IT IS SIMPLE: ALWAYS BREATHE THROUGH YOUR NOSE, NO MATTER THE ACTIVITY. YOUR JAW WILL CHANGE SHAPE TO ITS MOST NATURAL FORM.

(WHAT PEOPLE CALL THE GENETICALLY SUPERIOR JAWS, IS A MATTER OF BREATHING HABITS, NOT GENETICS).

WHILST RUNNING, FOCUS ON BREATHING DEEPLY.

ARM POSITIONING

IN PHYSICAL EDUCATION CLASSES IN SCHOOLS WE ARE TAUGHT TO POSITION OUR ARMS WITH ELBOWS BENT, FACING FORWARD.

THIS IS THE BEST POSITION FOR SHORT DISTANCE RUNNING OR SPRINTING. IF YOU PLAN ON RUNNING OR JOGGING FOR MANY HOURS, OVER A LONG DISTANCE, THERE IS AN ANCIENT TACTIC USED BY THE JAPANESE SHINOBI. INTERESTINGLY, IT IS ACCURATELY PORTRAYED IN AN ANIME SERIES CALLED NARUTO. IT WAS TESTED & CONFIRMED THAT LESS ENERGY IS SPENT WHEN RUNNING THIS WAY, THOUGH IT IS SLIGHTLY SLOWER:

SLIGHTLY LOWER YOUR BACK
FORWARD, & PUSH YOUR
ARMS LOOSELY BACKWARDS.

RUNNING, AMONG OTHER
AEROBIC TYPES OF EXERCISE
PROMOTES REGENERATION &
FORMATION OF NERVES,
INCREASES HEART STRENGTH,
IMPROVES BLOOD
CIRCULATION, LOWERS
RESTING HEART RATE,
INCREASES CARDIAC OUTPUT,
IMPROVES THE CHOLESTEROL
PROFILE, BURNS CALORIES,
REDUCES RISK OF
CARDIOVASCULAR DISEASES &
REDUCES THE PRODUCTION
OF CORTISOL, THE STRESS
HORMONE, THEREFORE
IMPACTING MENTAL HEALTH.
IN OTHER WORDS: RUN.
RUN EVERY DAY.

RESPIRATORY SYSTEM

AEROBIC EXERCISES PLAY A VITAL ROLE IN IMPROVING THE RESPIRATORY SYSTEM BY PROMOTING LUNG FUNCTION, INCREASING LUNG CAPACITY, & ENHANCING OVERALL RESPIRATORY EFFICIENCY. THIS OCCURS BY TRAINING YOUR HEART & BREATHING ABILITY THROUGH PHYSICAL DIFFICULTIES. HERE ARE SOME WAYS EXERCISE BENEFITS THE RESPIRATORY SYSTEM:

IMPROVED LUNG FUNCTION

REGULAR EXERCISE HELPS TO STRENGTHEN THE RESPIRATORY MUSCLES, SUCH AS THE DIAPHRAGM & INTERCOSTAL MUSCLES. STRENGTHENING THESE MUSCLES ALLOWS FOR MORE EFFECTIVE & EFFICIENT BREATHING.

INCREASED LUNG CAPACITY

EXERCISE, ESPECIALLY AEROBIC ACTIVITIES SUCH AS RUNNING, SWIMMING, OR CYCLING, HELPS TO INCREASE LUNG CAPACITY. THIS MEANS THAT THE LUNGS CAN TAKE IN MORE AIR WITH EACH BREATH, ALLOWING FOR A GREATER EXCHANGE OF OXYGEN & CARBON DIOXIDE DURING RESPIRATION.

ENHANCED GAS EXCHANGE

DURING EXERCISE, THE BODY'S DEMAND FOR OXYGEN INCREASES TO SUPPLY THE WORKING MUSCLES. THE RESPIRATORY SYSTEM RESPONDS BY INCREASING THE RATE OF BREATHING (RESPIRATORY RATE) & THE VOLUME OF AIR TAKEN IN WITH EACH BREATH (TIDAL VOLUME). THIS ENHANCES THE EFFICIENCY OF GAS EXCHANGE IN THE ALVEOLI, IMPROVING OXYGEN DELIVERY TO THE BLOODSTREAM & THE REMOVAL OF CARBON DIOXIDE.

IMPROVED OXYGEN TRANSPORT

EXERCISE STIMULATES THE PRODUCTION OF RED BLOOD CELLS, WHICH CARRY OXYGEN THROUGHOUT THE BODY. THIS INCREASE IN THE RED BLOOD CELLS IMPROVES THE OXYGEN-CARRYING CAPACITY OF THE BLOOD, ENHANCING OXYGEN TRANSPORT TO TISSUES & ORGANS.

IMPROVED BREATHING CONTROL

FORMS OF EXERCISE, SUCH AS YOGA & TAI CHI FOCUS ON CONTROLLED BREATHING TECHNIQUES. WHICH HELP INDIVIDUALS DEVELOP BETTER BREATHING PATTERNS, LEADING TO IMPROVED LUNG CAPACITY & RESPIRATORY CONTROL.

MUSCLE STRENGTHENING

THE HEALTHIEST WAY TO DEVELOP MUSCLES, BOTH FOR FUNCTIONALITY & LONGEVITY ARE **CALISTHENICS**. IT IS THE USE OF YOUR OWN BODY WEIGHT TO PREFORM RESISTANCE TRAINING. WHILST TRAINING WITH EXTERNAL WEIGHTS RELIES ON MUSCLE HYPERTROPHY, BY CREATING LARGE TEARS IN YOUR MUSCLES, AS THEY REGENERATE, THEY ARE MADE DENSER & THEREFORE YOUR BODY APPEARS LARGER, AT THE COST OF BALANCE & LONGEVITY. HERE IS HOW CALISTHENICS AFFECT MUSCLE DEVELOPMENT:

MUSCLE ENDURANCE

CALISTHENICS EXERCISES INVOLVE HIGH-REPETITION SETS & ISOMETRIC HOLDS, WHICH IMPROVE MUSCLE ENDURANCE. ENDURANCE-FOCUSED MOVEMENTS SUCH AS PUSH-UPS, BODYWEIGHT SQUATS, & PLANKS CHALLENGE YOUR MUSCLES TO WORK FOR AN EXTENDED PERIOD, INCREASING MUSCULAR STAMINA.

MUSCLE STRENGTH

CALISTHENICS EXERCISES ARE EXCELLENT FOR MUSCLE STRENGTH. MOVEMENTS SUCH AS PULL-UPS, DIPS, & PUSH-UPS ENGAGE MULTIPLE MUSCLE GROUPS SIMULTANEOUSLY, IMPROVING STRENGTH.

COMPOUND MOVEMENTS

CALISTHENIC EXERCISES ARE OFTEN COMPOUND MOVEMENTS, WHICH MEANS THEY INVOLVE MULTIPLE JOINTS & MUSCLE GROUPS. THIS TYPE OF EXERCISE RECRUITS MORE MUSCLE FIBERS & CREATES A MORE FUNCTIONAL & BALANCED STRENGTH ACROSS THE BODY.

ISOMETRIC CONTRACTIONS

CALISTHENIC EXERCISES OFTEN INCORPORATE ISOMETRIC CONTRACTIONS, WHERE THE MUSCLE IS HELD IN A STATIC POSITION. THIS TYPE OF CONTRACTION IS EXCELLENT FOR BUILDING STRENGTH WITHOUT NECESSARILY PROMOTING SIGNIFICANT MUSCLE SIZE.

MUSCULAR APPEARANCE

WHILST CALISTHENICS DO NOT RESULT IN AS MUCH MUSCLE HYPERTROPHY AS TRADITIONAL WEIGHTLIFTING, IT CAN STILL LEAD TO NOTICEABLE MUSCLE DEVELOPMENT, ESPECIALLY FOR THOSE TRANSITIONING FROM A SEDENTARY LIFESTYLE.

PROGRESSIVE OVERLOAD

LIKE ANY FORM OF RESISTANCE TRAINING, PROGRESSIVE OVERLOAD IS ESSENTIAL IN CALISTHENICS TO STIMULATE MUSCLE GROWTH. AS YOU PROGRESS & PERFORM MORE CHALLENGING VARIATIONS OR INCREASE REPETITIONS, YOU WILL CONTINUALLY CHALLENGE YOUR MUSCLES, LEADING TO DEVELOPMENT & STRENGTH GAINS.

CORE STRENGTH

MANY CALISTHENIC EXERCISES HEAVILY ENGAGE THE CORE MUSCLES FOR STABILIZATION & BALANCE.

THIS FOCUS ON CORE STRENGTH CAN IMPROVE POSTURE, STABILITY, & OVERALL FUNCTIONAL STRENGTH.

BALANCED MUSCLES

CALISTHENICS ENCOURAGES A BALANCED APPROACH TO MUSCLE DEVELOPMENT, AS MANY EXERCISES REQUIRE YOU TO USE BOTH PUSHING & PULLING MOVEMENTS. THIS BALANCE LEADS TO A SYMMETRICAL & HARMONIOUS PHYSIQUE.

MOBILITY & FLEXIBILITY

CALISTHENICS INVOLVE DYNAMIC MOVEMENTS & BODY CONTROL, WHICH IMPROVES MOBILITY & FLEXIBILITY. IMPROVED FLEXIBILITY LEADS TO BETTER MUSCLE PERFORMANCE & REDUCES THE RISK OF INJURIES.

FUNCTIONAL FITNESS

CALISTHENIC EXERCISES MIMIC REAL-LIFE MOVEMENTS & CAN IMPROVE YOUR ABILITY TO PERFORM EVERYDAY ACTIVITIES WITH GREATER EASE & EFFICIENCY.

BONE STRENGTHENING

MUCH LIKE MUSCLE
STRENGTHENING,
CALISTHENIC EXERCISES
HAVE A POSITIVE IMPACT ON
BONE DEVELOPMENT,
PARTICULARLY WHEN IT
INVOLVES WEIGHT-BEARING
EXERCISES & DYNAMIC
MOVEMENTS.

HERE IS HOW CALISTHENIC
EXERCISES AFFECT BONE
DEVELOPMENT:

WEIGHT-BEARING EXERCISES

CALISTHENICS INVOLVE WEIGHT-BEARING EXERCISES WHERE YOU SUPPORT YOUR BODY WEIGHT AGAINST GRAVITY. THESE EXERCISES, SUCH AS SQUATS, LUNGES, & PUSH-UPS, PUT STRESS ON YOUR BONES, STIMULATING THEM TO BECOME DENSER & STRONGER.

IMPACT & MECHANICAL STRESS

MANY CALISTHENIC EXERCISES REQUIRE JUMPING OR LANDING, CREATING IMPACT & MECHANICAL STRESS ON BONES. THIS IMPACT STIMULATES BONE FORMATION & REMODELING, LEADING TO IMPROVED BONE DENSITY.

RESISTANCE TRAINING

CALISTHENIC EXERCISES WHICH INVOLVE MUSCLE CONTRACTIONS ALSO PUT PRESSURE ON THE BONES ATTACHED TO THOSE MUSCLES. AS YOUR MUSCLES PULL AGAINST THE BONES DURING EXERCISES SUCH AS PULL-UPS OR DIPS, THE BONES RESPOND BY BECOMING STRONGER.

LOAD-BEARING JOINTS

CALISTHENICS INVOLVE MOVEMENTS WHICH CHALLENGE MAJOR LOAD-BEARING JOINTS, SUCH AS HIPS, KNEES, & SHOULDERS.

STRENGTHENING THESE
JOINTS THROUGH
CALISTHENICS CAN ENHANCE
THEIR STABILITY & REDUCE
THE RISK OF JOINT-RELATED
PROBLEMS.

FULL-BODY ENGAGEMENT

CALISTHENIC EXERCISES
REQUIRE THE ENGAGEMENT
OF MULTIPLE MUSCLE GROUPS
& JOINTS THROUGHOUT THE
BODY. THIS FULL-BODY
INVOLVEMENT CREATES A
COMPREHENSIVE &
BALANCED APPROACH TO
BONE DEVELOPMENT.

FUNCTIONAL MOVEMENTS

CALISTHENIC EXERCISES
MIMIC NATURAL HUMAN
MOVEMENTS & ACTIVITIES,
WHICH TRANSLATES TO
IMPROVED FUNCTIONAL
FITNESS. BY TRAINING THE
BODY TO PERFORM
FUNCTIONAL MOVEMENTS,
CALISTHENICS CONTRIBUTE
TO BONE HEALTH.

ADAPTATION TO STRESS

BONES, JUST LIKE MUSCLES,
ADAPT TO THE STRESS
PLACED UPON THEM.
CALISTHENIC EXERCISES
WITH VARYING INTENSITIES
& PROGRESSIVE CHALLENGES
PROMOTE BONE ADAPTATION
& DEVELOPMENT.

BALANCE & PROPRIOCEPTION

CALISTHENICS OFTEN INCORPORATES EXERCISES WHICH CHALLENGE BALANCE & PROPRIOCEPTION (*AWARENESS OF BODY POSITION IN SPACE*). IMPROVING THESE ASPECTS CAN REDUCE THE RISK OF FALLS & FRACTURES.

BODYWEIGHT OVERLOAD

AS YOU PROGRESS IN CALISTHENICS & INCREASE THE COMPLEXITY & INTENSITY OF EXERCISES, YOUR BODYWEIGHT CAN PROVIDE A SUFFICIENT OVERLOAD TO STIMULATE BONE GROWTH.

ENDORPHINS

ENDORPHINS ARE A TYPE OF
NEUROTRANSMITTER:
CHEMICALS WHICH TRANSMIT
SIGNALS IN THE BRAIN &
BODY.

THEY BELONG TO A CLASS OF
NEUROTRANSMITTERS
KNOWN AS

NEUROMODULATORS WHICH
REGULATE BOTH PHYSICAL &
MENTAL HEALTH.

HERE IS HOW ENDORPHINS
IMPACT YOUR BODY:

PAIN RELIEF

ENDORPHINS ARE OFTEN
REFERED TO AS THE BODY'S
NATURAL PAIN-KILLERS.

WHEN RELEASED, THEY BIND TO SPECIFIC RECEPTORS IN THE BRAIN & SPINAL CORD, REDUCING THE PERCEPTION OF PAIN. THIS PAIN-RELIEVING EFFECT IS SIMILAR TO THAT OF OPIOID DRUGS. ENDORPHINS CAN HELP ALLEVIATE DISCOMFORT & CONTRIBUTE TO A SENSE OF WELL-BEING.

MOOD ENHANCEMENT

ONE OF THE MOST WELL-KNOWN EFFECTS OF ENDORPHINS IS THEIR ROLE IN MOOD ENHANCEMENT. ENDORPHINS CREATE FEELINGS OF PLEASURE & EUPHORIA, LEADING TO IMPROVED MOOD & REDUCED FEELINGS OF STRESS, ANXIETY, & DEPRESSION.

THE RUNNER'S HIGH
EXPERIENCED AFTER INTENSE
EXERCISE IS OFTEN
ATTRIBUTED TO THE RELEASE
OF ENDORPHINS. THIS MOOD
ENHANCEMENT CAN HAVE A
POSITIVE IMPACT ON MENTAL
HEALTH BY PROMOTING A
MORE POSITIVE OUTLOOK &
EMOTIONAL BALANCE.

REGULATION OF EMOTIONS

ENDORPHINS CONTRIBUTE TO
EMOTIONAL REGULATION BY
INFLUENCING HOW WE
PERCEIVE & RESPOND TO
STIMULI. THEY CAN MITIGATE
THE IMPACT OF NEGATIVE
EMOTIONS & HELP
INDIVIDUALS COPE WITH
CHALLENGING SITUATIONS.

SOCIAL BONDING

ENDORPHINS AFFECT SOCIAL BONDING & THE FEELINGS OF CONNECTION WITH OTHERS.

ENGAGING IN ACTIVITIES WHICH TRIGGER THE RELEASE OF ENDORPHINS, SUCH AS PARTICIPATING IN GROUP EXERCISE CLASSES, ADVENTURES, DANGEROUS EVENTS OR TEAM SPORTS, CAN FOSTER A SENSE OF CAMARADERIE & STRENGTHEN SOCIAL RELATIONSHIPS.

ADDICTION & REWARD PATHWAYS

ENDORPHINS ARE INVOLVED IN THE BRAIN'S REWARD PATHWAYS. THEY CONTRIBUTE TO THE FEELINGS OF PLEASURE & SATISFACTION WHICH ARE ASSOCIATED WITH ACTIVITIES SUCH AS EATING, EXERCISING, & ENGAGING IN POSITIVE SOCIAL INTERACTIONS. THIS CONNECTION BETWEEN ENDORPHINS & REWARD SYSTEMS CAN ALSO PLAY A ROLE IN ADDICTION & SUBSTANCE ABUSE, AS SOME DRUGS & INDUSTRIAL FOODS CAN TRIGGER THE RELEASE OF ENDORPHINS & CREATE A REINFORCING CYCLE OF USE.

CONFIDENCE

EXERCISE CAN IMPACT YOUR LEVEL OF CONFIDENCE IN VARIOUS WAYS, SOME OF THESE HAVE ALREADY BEEN AFOREMENTIONED. IT IS ALSO IMPORTANT TO NOTE THAT DIFFERENT TYPES OF EXERCISE CAN IMPACT YOUR LEVEL OF CONFIDENCE DIFFERENTLY. THOUGH THE MAIN FACTOR IS THE SKILL & ABILITY TO USE YOUR BODY, COMBAT & ACROBATICS WORK BEST FOR THIS. BRUTE STRENGTH, WHILST IT DOES BOOST CONFIDENCE, IT IS SURPRISINGLY LITTLE IN COMPARISON TO SKILLED EXERCISE.

PHYSICA WELL-BEING

REGULAR EXERCISE CONTRIBUTES TO IMPROVED PHYSICAL HEALTH, WHICH CAN LEAD TO BETTER SELF-IMAGE. WHEN YOU FEEL PHYSICALLY STRONG & HEALTHY FEELINGS OF CONFIDENCE REGARDING YOUR BODY & ABILITIES ARE BOUND TO ARISE.

MENTAL HEALTH

AS MENTIONED BEFORE, EXERCISE RELEASES ENDORPHINS. THESE CHEMICALS CAN HELP REDUCE FEELINGS OF STRESS, ANXIETY, & DEPRESSION. WHEN YOUR MENTAL HEALTH IMPROVES, SO DOES YOUR CONFIDENCE.

ACHIVEMENT & PROGRESS

SETTING FITNESS ASPIRATIONS & ACHIEVING THEM BOOSTS YOUR SENSE OF ACCOMPLISHMENT & SELF-WORTH. WHETHER IT IS RUNNING A CERTAIN DISTANCE, JUMPING A CERTAIN HEIGHT, OR REACHING A CERTAIN DAILY STREAK. THESE ACHIEVEMENTS TRANSLATE INTO A SENSE OF PRIDE & CONFIDENCE IN YOUR ABILITIES.

MOOD ENHANCEMENT

REGULAR EXERCISE BETTERS YOUR BODY COMPOSITION & APPEARANCE. AS YOU NOTICE THESE CHANGES YOUR CONFIDENCE WILL GROW.

INCREASED ENERGY

REGULAR PHYSICAL ACTIVITY, ALONG WITH HEALTHY SLEEP LEADS TO INCREASED ENERGY LEVELS & OVERALL VITALITY. WHEN YOU FEEL ENERGETIC, YOU ARE MORE LIKELY TO ENGAGE IN SOCIAL ACTIVITIES & TAKE ON NEW CHALLENGES, WHICH CONTRIBUTES TO YOUR CONFIDENCE.

COGNITIVE BENEFITS

REGULAR EXERCISE PAIRED WITH DEEP SLEEP IMPROVES COGNITIVE FUNCTION, INCLUDING ENHANCED MEMORY, FOCUS, & PROBLEM-SOLVING SKILLS. THIS UNDOUBTEDLY IMPROVES YOUR SELF-ASSURANCE & CONFIDENCE.

SENSE OF CONTROL

ENGAGING IN REGULAR EXERCISE GIVES YOU A SENSE OF CONTROL OVER YOUR HEALTH & WELL-BEING. THIS CONTROL TRANSLATES INTO A GREATER SENSE OF SELF-CONFIDENCE & SELF-EFFICACY, KNOWING THAT YOU ARE ACTIVELY TAKING STEPS TO IMPROVE YOUR LIFE.

AWARENESS

ENGAGING IN PHYSICAL ACTIVITY REQUIRES MINDFULNESS & FOCUS ON YOUR BODY'S MOVEMENTS & SENSATIONS. THIS CONNECTION HELPS YOU UNDERSTAND YOUR CAPABILITIES & EVENTUALLY BOOSTS YOUR CONFIDENCE.

LIFE EXPECTANCY

EXERCISE, JUST LIKE SLEEP &
A FEW OTHER IMPORTANT
HABITS, GREATLY AFFECT
YOUR LIFE EXPECTANCY.
MASTERING THEM ALL WILL
STACK SUCH AN EFFECT.
UNLESS YOU ARE DELUDED BY
CULTURAL OR RELIGIOUS
PROPAGANDA, YOU WANT TO
LIVE A LONG YOUTHFUL LIFE.
PREFERABLY AN IMMORTAL
ONE. I CAN NOT TEACH YOU
THE LATTER, NOT AT THIS
TIME, ALAS, THIS BOOK WILL
HELP YOU LIVE AT LEAST
TRIPLE THE CURRENT
AVERAGE LIFESPAN.
HERE IS HOW EXERCISE
IMPACTS LONGEVITY:

CARDIOVASCULAR HEALTH

REGULAR AEROBIC EXERCISE IMPROVES THE HEALTH OF YOUR HEART & BLOOD VESSELS. IT HELPS REDUCE THE RISK OF CONDITIONS SUCH AS HIGH BLOOD PRESSURE, HEART DISEASE, & STROKES. IT DOES THIS BY STRENGTHENING THE HEART MUSCLE, IMPROVING CIRCULATION, & LOWERING BAD CHOLESTEROL LEVELS.

MENTAL HEALTH

REGULAR EXERCISE DECREASES THE PRODUCTION OF CORTISOL, THE STRESS HORMONE, WHICH, IF OVERPRODUCED, LINKS TO A SHORTER LIFESPAN.

IMPROVED LUNG FUNCTION

AEROBIC EXERCISES SUCH
RUNNING, SWIMMING, FAST-
CLIMBING, PARKOUR &
CYCLING IMPROVE LUNG
CAPACITY & FUNCTION.

THIS LEADS TO BETTER
OXYGEN EXCHANGE IN THE
BODY, ENHANCING OVERALL
VITALITY.

COGNITIVE BENEFITS

MODERATE EXERCISE HAS
BEEN SHOWN TO BOOST THE
IMMUNE SYSTEM, MAKING
THE BODY MORE RESILIENT
TO INFECTIONS & DISEASES.

COGNITIVE HEALTH

FREQUENT PHYSICAL
EXERCISE IMPROVES
COGNITIVE FUNCTIONING &
REDUCES ITS DECLINE.

Chapter 5

TEMPERATURE

YOUR ENVIRONMENTAL
TEMPERATURE & YOUR
ABILITY TO ADAPT TO IT HAS
AN ENORMOUS IMPACT ON
YOUR OVERALL HEALTH.

EFFECTS ON THE BRAIN

TEMPERATURE HAS
SIGNIFICANT EFFECTS ON
THE BRAIN & ITS FUNCTIONS.

THE BRAIN IS A HIGHLY
SENSITIVE ORGAN WHICH
REQUIRES A TIGHTLY
CONTROLLED ENVIRONMENT
TO FUNCTION OPTIMALLY.

HERE ARE SOME WAYS IN
WHICH TEMPERATURE CAN
IMPACT THE BRAIN:

COGNITIVE FUNCTION

EXTREME TEMPERATURES,
BOTH HOT & COLD, IMPAIR
COGNITIVE FUNCTION.

HIGH TEMPERATURES LEAD TO DIFFICULTIES IN CONCENTRATION, MEMORY, & DECISION-MAKING. LOW TEMPERATURES SLOW DOWN REACTION TIMES & IMPAIR COGNITIVE PROCESSING.

NEUROTRANSMITTER FUNCTION

TEMPERATURE INFLUENCES THE RELEASE & ACTIVITY OF NEUROTRANSMITTERS, WHICH ARE CHEMICALS THAT TRANSMIT SIGNALS BETWEEN BRAIN CELLS. HIGHER TEMPERATURES CAN INCREASE THE RELEASE OF CERTAIN NEUROTRANSMITTERS SUCH AS SEROTONIN, WHICH CAN IMPACT MOOD AND BEHAVIOR.

NEURONAL ACTIVITY

TEMPERATURE AFFECTS THE SPEED AT WHICH NEURONS FIRE & COMMUNICATE WITH EACH OTHER. HIGHER TEMPERATURES GENERALLY LEAD TO INCREASED NEURONAL ACTIVITY, WHICH AFFECT COGNITIVE PROCESSING, DECISION-MAKING, & OTHER BRAIN FUNCTIONS.

METABOLIC RATE

TEMPERATURE AFFECTS THE METABOLIC RATE OF THE BRAIN CELLS. HIGHER TEMPERATURES INCREASE THE METABOLIC RATE, LEADING TO INCREASED ENERGY CONSUMPTION & DEMAND FOR OXYGEN & GLUCOSE BY BRAIN CELLS.

SYNAPTIC PLASTICITY

TEMPERATURE INFLUENCES SYNAPTIC PLASTICITY, WHICH IS THE ABILITY OF SYNAPSES (CONNECTIONS BETWEEN NEURONS) TO CHANGE & ADAPT IN RESPONSE TO LEARNING & EXPERIENCE. OPTIMAL TEMPERATURES ARE NECESSARY FOR EFFECTIVE SYNAPTIC PLASTICITY, WHICH UNDERLIES LEARNING & MEMORY PROCESSES.

NEUROINFLAMMATION

TEMPERATURE CHANGES CONTRIBUTE TO NEUROINFLAMMATORY RESPONSES IN THE BRAIN. INFLAMMATION IN THE BRAIN DISRUPTS NEURAL FUNCTION & COMMUNICATION, LEADING TO COGNITIVE IMPAIRMENTS.

BLOOD-BRAIN BARRIER

TEMPERATURE CHANGES CAN AFFECT THE PERMEABILITY OF THE BLOOD-BRAIN BARRIER, WHICH IS A PROTECTIVE BARRIER THAT SEPARATES THE BLOODSTREAM FROM THE BRAIN TISSUE. ALTERED PERMEABILITY IMPACTS THE EXCHANGE OF SUBSTANCES BETWEEN THE BLOOD AND THE BRAIN, INFLUENCING NEURAL FUNCTION.

OXYGEN & NUTRIENT SUPPLY

TEMPERATURE AFFECTS BLOOD FLOW & CIRCULATION, WHICH IN TURN IMPACTS THE SUPPLY OF OXYGEN & NUTRIENTS TO BRAIN CELLS. PROPER OXYGEN & NUTRIENT DELIVERY IS ESSENTIAL FOR NATURAL BRAIN FUNCTION.

BRAIN WAVES

TEMPERATURE INFLUENCES THE GENERATION & FREQUENCY OF BRAIN WAVES, SUCH AS ALPHA, BETA, THETA, & DELTA WAVES. DIFFERENT BRAIN WAVE PATTERNS ARE ASSOCIATED WITH DIFFERENT COGNITIVE STATES, & TEMPERATURE CHANGES CAN ALTER THESE PATTERNS.

ELECTROLYTE BALANCE

TEMPERATURE IMPACTS THE BALANCE OF ELECTROLYTES IN THE BRAIN, WHICH ARE ESSENTIAL FOR MAINTAINING THE ELECTRICAL ACTIVITY OF NEURONS. DISRUPTIONS IN ELECTROLYTE BALANCE AFFECT NEURAL SIGNALING & BRAIN FUNCTION.

HORMONE REGULATION

TEMPERATURE INFLUENCES THE PRODUCTION & RELEASE OF HORMONES WHICH AFFECT BRAIN FUNCTION, SUCH AS CORTISOL, WHICH IS INVOLVED IN THE STRESS RESPONSE. HORMONAL CHANGES DUE TO TEMPERATURE SHIFTS CAN IMPACT MOOD, COGNITION, & OVERALL BEHAVIOR.

COLD EXPOSURE BENEFITS

COLD EXPOSURE,
PARTICULARLY DURING THE
NIGHT, HAS VARIOUS
EFFECTS ON THE BODY &
OFFERS CERTAIN BENEFITS.

IMPROVED SLEEP QUALITY

COOLER TEMPERATURES
BETTER SLEEP QUALITY. THE
BODY'S CORE TEMPERATURE
NATURALLY DECREASES
DURING THE EVENING &
THROUGHOUT THE NIGHT,
WHICH HELPS INITIATE &
MAINTAIN SLEEP. SLEEPING
IN A SLIGHTLY COOLER
ENVIRONMENT SUPPORTS
THIS NATURAL TEMPERATURE
DROP & PROMOTES REST.

HIGHER MELATONIN PRODUCTION

MELATONIN IS A HORMONE WHICH REGULATES SLEEP-WAKE CYCLES. COOLER TEMPERATURES HELP STIMULATE THE RELEASE OF MELATONIN, PROMOTING A MORE CONSISTENT SLEEP SCHEDULE & BETTER ONSET.

CALORIC EXPENDITURE & METABOLIC BENEFITS

EXPOSURE TO COLDER TEMPERATURES, PARTICULARLY DURING SLEEP, LEADS TO INCREASED ENERGY EXPENDITURE AS THE BODY WORKS TO MAINTAIN ITS CORE TEMPERATURE. THIS EXTRA ENERGY EXPENDITURE COULD POTENTIALLY CONTRIBUTE TO WEIGHT LOSS OR WEIGHT MANAGEMENT OVER TIME.

BROWN FAT ACTIVATION INCREASE

BROWN ADIPOSE TISSUE, OR BROWN FAT, IS A TYPE OF FAT WHICH GENERATES HEAT BY BURNING CALORIES. COLD EXPOSURE CAN STIMULATE THE ACTIVATION OF BROWN FAT, WHICH MAY HAVE METABOLIC BENEFITS & REGULATES BODY WEIGHT.

HORMONAL BALANCE

COLD EXPOSURE IMPROVES HORMONAL BALANCE, INCLUDING INCREASES IN GROWTH HORMONE PRODUCTION. GROWTH HORMONE IS ESSENTIAL FOR TISSUE REPAIR, MUSCLE GROWTH, & VITALITY.

COGNITIVE BENEFITS

EXPOSURE TO COOLER TEMPERATURES ENHANCES COGNITIVE FUNCTION, INCLUDING ATTENTION, FOCUS, & ALERTNESS. THIS IS DUE TO INCREASED BLOOD FLOW TO THE BRAIN & IMPROVED NEUROTRANSMITTER ACTIVITY.

ENHANCED IMMUNE RESPONSE

MODERATE COLD EXPOSURE BOOSTS THE IMMUNE SYSTEM'S RESPONSE TO INFECTIONS BY INCREASING THE PRODUCTION OF IMMUNE CELLS & ACTIVATING IMMUNE-RELATED PATHWAYS.

IDEALLY, SLEEP WITH 18°C (64.4°F) **ROOM TEMPERATURE.**

COLD SHOWERS

SAVE MONEY ON BILLS &
SIMULTANEOUSLY IMPROVE
YOUR HEALTH & WILLPOWER!

Elodin Istina
@Edaryion

Before my Post-Covid issues, I have been showering twice per day, with cold water, for over a decade. I have not been sick with the common cold at all during these years.

IMPROVED ALERTNESS & ENERGY

COLD WATER EXPOSURE
STIMULATES THE
SYMPATHETIC NERVOUS
SYSTEM, LEADING TO
INCREASED ALERTNESS & A
BOOST IN ENERGY LEVELS. A
COLD SHOWER IN THE
MORNING IS FAR MORE
POWERFUL, SUSTAINABLE &
HEALTHIER, THAN COFFE. 😊

ENHANCED CIRCULATION

COLD WATER CAUSES BLOOD
VESSELS TO CONSTRICT,
WHICH CAN LEAD TO
IMPROVED CIRCULATION AS
THE BODY WORKS TO
MAINTAIN ITS CORE
TEMPERATURE, BENEFITTING
CARDIOVASCULAR HEALTH.

MOOD ENHANCEMENT

COLD SHOWERS TRIGGER THE RELEASE OF ENDORPHINS & OTHER MOOD-IMPROVING NEUROTRANSMITTERS, LEADING TO A FEELING OF EUPHORIA & REDUCED STRESS.

IMMUNE SYSTEM ACTIVATION

COLD EXPOSURE ACTIVATES CERTAIN IMMUNE RESPONSES, LEADING TO A TEMPORARY BOOST IN IMMUNE FUNCTION. THIS HELPS THE BODY DEFEND AGAINST INFECTIONS.

SKIN HEALTH

COLD WATER CONSTRICTS PORES & TIGHTENS SKIN, IMPROVING SKIN TONE & REDUCING THE APPEARANCE OF PUFFINESS.

HAIR HEALTH

COLD SHOWERS IMPROVE HAIR HEALTH BY CONSTRICTING CUTICLES, REDUCING DAMAGE, & ENHANCING SHINE. COLD WATER CLOSES THE HAIR'S OUTER LAYERS, SMOOTHING THE SURFACE, PREVENTING MOISTURE LOSS, & REFLECTING LIGHT FOR SHINIER HAIR.

ADDITIONALLY, IT REGULATES SEBUM PRODUCTION FOR A HEALTHIER SCALP.

FAT BURNING

COLD EXPOSURE ACTIVATES BROWN FAT, WHICH BURNS CALORIES TO GENERATE HEAT. REGULAR COLD SHOWERS CONTRIBUTE TO CALORIE EXPENDITURE & WEIGHT MANAGEMENT.

HEAT EXPOSURE

EXPOSING YOURSELF TO
MODERATE HEAT OF PLURAL
SOURCES DURING THE DAY
HAS VARIOUS BENEFITS.

Elodin Istina
@Edaryion

If you watch screens before bed
time, use blue light filters.
Expose yourself to natural
sunlight during mornings. This
will greatly improve your sleep.

VITAMIN D PRODUCTION

SUNLIGHT IS A NATURAL
SOURCE OF VITAMIN D,
WHICH IS ESSENTIAL FOR
MAINTAINING HEALTHY
BONES & JOINTS,
SUPPORTING YOUR IMMUNE
SYSTEM, & EVEN
CONTRIBUTING TO YOUR
MOOD & MENTAL HEALTH.

IMPROVED BLOOD CIRCULATION

EXPOSURE TO HEAT
PROMOTES VASODILATION,
WHICH IMPROVES BLOOD
CIRCULATION. THIS
ENHANCES THE DELIVERY OF
OXYGEN & NUTRIENTS TO
YOUR BODY'S CELLS, AIDING
IN OVERALL HEALTH.

ENHANCED METABOLISM

HEAT EXPOSURE INCREASES
YOUR METABOLIC RATE,
AIDING IN WEIGHT
MANAGEMENT & BOOSTING
YOUR BODY'S EFFICIENCY IN
PROCESSING NUTRIENTS.

STRESS REDUCTION

SPENDING TIME IN THE SUN
& FEELING ITS WARMTH
TRIGGERS THE RELEASE OF
ENDORPHINS, WHICH ARE
NATURAL MOOD BOOSTERS
WHICH REDUCE STRESS &
IMPROVE YOUR OVERALL
SENSE OF WELL-BEING.

COGNITIVE BENEFITS

EXPOSURE TO NATURAL LIGHT
& WARMTH IMPROVES
COGNITIVE FUNCTION &
ENHANCES FOCUS.

SKIN HEALTH

CONTROLLED SUNLIGHT EXPOSURE HAS A POSITIVE IMPACT ON VARIOUS SKIN CONDITIONS SUCH AS PSORIASIS, ECZEMA, & ACNE. IT ALSO HELPS WITH THE PRODUCTION OF MELANIN, WHICH OFFERS SOME PROTECTION AGAINST HARMFUL UV RAYS.

IMPROVED SLEEP

REGULAR EXPOSURE TO NATURAL SUNLIGHT DURING THE DAY REGULATES YOUR CIRCADIAN RHYTHM, BETTERING YOUR SLEEP.

MOOD ENHANCEMENT

SUNLIGHT EXPOSURE INCREASES SEROTONIN PRODUCTION, A 'HAPPINESS' NEUROTRANSMITTER.

TEMPERATURE ADAPTATION

YOU CAN ADAPT YOUR BODY
TO EXTREME
ENVIRONMENTAL
TEMPERATURES & GREATLY
BENEFIT FROM THAT.

Elodin Istina
@Edaryion

I am grateful for Wim Hof's
experimentations. He has
proven that our bodies can
adapt to both extreme heat &
extreme cold & thrive in it.

ADAPTATION TO COLD

BROWN FAT ACTIVATION

COLD EXPOSURE TRIGGERS THE ACTIVATION OF BROWN ADIPOSE TISSUE (BAT), ALSO KNOWN AS BROWN FAT. THIS TYPE OF FAT GENERATES HEAT BY BURNING CALORIES, AIDING IN MAINTAINING BODY TEMPERATURE.

INCREASED METABOLISM

COLD EXPOSURE BOOSTS THE METABOLIC RATE AS THE BODY WORKS TO GENERATE HEAT. THIS CONTRIBUTES TO WEIGHT LOSS.

IMPROVED CIRCULATION

EXPOSURE TO COLD STIMULATES BLOOD FLOW TO THE EXTREMITIES, KEEPING THEM WARM & MAINTAINING PROPER CIRCULATION.

ENHANCED IMMUNE FUNCTION

COLD EXPOSURE PROMOTES THE PRODUCTION OF IMMUNE CELLS AND ANTI-INFLAMMATORY RESPONSES, BOLSTERING IMMUNE SYSTEM FUNCTION.

ADAPTATION TO HEAT

HEAT SHOCK PROTEINS

EXPOSURE TO HEAT INDUCES THE PRODUCTION OF HEAT SHOCK PROTEINS (HSPS) WHICH AID IN CELLULAR REPAIR & PROTECT AGAINST STRESS-RELATED DAMAGE.

INCREASED SWEAT RATE

REGULAR HEAT EXPOSURE
TRAINS THE BODY TO
PRODUCE MORE SWEAT,
LEADING TO IMPROVED HEAT
DISSIPATION & BETTER
TEMPERATURE REGULATION.

CARDIOVASCULAR BENEFITS

HEAT TRAINING ENHANCES
CARDIOVASCULAR FITNESS BY
IMPROVING BLOOD VESSEL
FUNCTION & POTENTIALLY
LOWERING BLOOD PRESSURE.

ENHANCED ENDURANCE

HEAT ACCLIMATIZATION
BETTERS ENDURANCE BY
IMPROVING THE BODY'S
ABILITY TO MANAGE HEAT
STRESS DURING EXERCISE.

MECHANICS OF ADAPTATION

HORMONAL RESPONSES

COLD EXPOSURE TRIGGERS THE RELEASE OF HORMONES SUCH AS NOREPINEPHRINE, WHICH INCREASES THE METABOLIC RATE & HEAT PRODUCTION.

VASCULAR ADAPTATIONS

BLOOD VESSELS ADAPT TO COLD BY CONSTRICTING TO MINIMIZE HEAT LOSS, WHILE IN HEAT, THEY DILATE TO INCREASE HEAT DISSIPATION.

NEURAL ADAPTATIONS

THE NERVOUS SYSTEM ADJUSTS TO TEMPERATURE CHANGES, MODULATING RESPONSES TO COLD & HEAT THROUGH NEURAL PATHWAYS.

CELLULAR ADAPTATIONS

CELLS UNDERGO CHANGES TO
ENHANCE ENERGY
PRODUCTION & HEAT
GENERATION, HELPING TO
WITHSTAND EXTREME
TEMPERATURES.

TEMPERATURE TRAINING BENEFITS

IMPROVED TOLERANCE

GRADUAL EXPOSURE TO
EXTREME TEMPERATURES
ENHANCES THE BODY'S
ABILITY TO TOLERATE
TEMPERATURE VARIATIONS
WITHOUT EXCESSIVE
DISCOMFORT OR STRESS.

Elodin Istina
@Edaryion

Environmental temperature
consistency matters!

ENHANCED COMFORT

ADAPTATION TRAINING CAN
MAKE EVERYDAY LIFE IN
EXTREME TEMPERATURES
MORE COMFORTABLE BY
REDUCING THE BODY'S
SENSITIVITY TO EXTREMES.

PERFORMANCE ENHANCEMENT

THOSE WHO UNDERGO
TEMPERATURE ADAPTATION
TRAINING EXPERIENCE
IMPROVED PHYSICAL
PERFORMANCE,
PARTICULARLY IN
ENDURANCE ACTIVITIES.

STRESS RESILIENCE

ADAPTATION TO
TEMPERATURE EXTREMES
ENHANCES THE BODY'S
RESILIENCE TO STRESSORS,
BOTH PHYSICAL &
PSYCHOLOGICAL.

METABOLIC HEALTH

COLD EXPOSURE, IN PARTICULAR, OFFERS BENEFITS FOR METABOLIC HEALTH BY PROMOTING BROWN FAT ACTIVATION & IMPROVING INSULIN SENSITIVITY.

WIM HOF'S TECHNIQUES, WHICH INVOLVE CONTROLLED BREATHING, COLD EXPOSURE, & MINDSET TRAINING, HAVE SHOWN THAT INTENTIONAL EXPOSURE TO EXTREME TEMPERATURES LEADS TO THESE PHYSIOLOGICAL ADAPTATIONS, DEMONSTRATING THE REMARKABLE FLEXIBILITY OF THE HUMAN BODY TO ADAPT TO CHALLENGING ENVIRONMENTS.

MECHANICS OF ADAPTATION

HORMONAL RESPONSES

COLD EXPOSURE TRIGGERS THE RELEASE OF HORMONES SUCH AS NOREPINEPHRINE, WHICH INCREASES THE METABOLIC RATE & HEAT PRODUCTION.

VASCULAR ADAPTATIONS

BLOOD VESSELS ADAPT TO COLD BY CONSTRICTING TO MINIMIZE HEAT LOSS, WHILE IN HEAT, THEY DILATE TO INCREASE HEAT DISSIPATION.

NEURAL ADAPTATIONS

THE NERVOUS SYSTEM ADJUSTS TO TEMPERATURE CHANGES, MODULATING RESPONSES TO COLD & HEAT THROUGH NEURAL PATHWAYS.

breathe

AIR QUALITY

AIR QUALITY AFFECTS OUR
PERFORMANCE. WE
CONSTANTLY BREATHE AIR TO
FUEL OUR MINDS & BODIES,
ITS QUALITY MATTERS.

TOXINS

TOXINS ARE NEGATIVE
COMPONENTS OF AIR CAUSED
BY VARIOUS FACTORS.
KNOWING WHAT THEY ARE
CAN HELP YOU AVOID THEM.

Elodin Istina
@Edaryion

Whilst living in a city with
factories may not be something
you can change presently, there
are changes you **can** make to
improve your home.

DUST MITES

DUST MITES CAN TRIGGER ALLERGIES & ASTHMA IN SUSCEPTIBLE INDIVIDUALS. THEY CAN CAUSE SNEEZING, COUGHING, & ITCHY OR WATERY EYES.

MOLD

MOLD SPORES CAN WORSEN RESPIRATORY PROBLEMS, SUCH AS ASTHMA OR ALLERGIES. PROLONGED EXPOSURE CAN LEAD TO MORE SEVERE LUNG ISSUES.

CARBON MONOXIDE (CO)

LEAKING FROM GAS APPLIANCES, CO CAN LEAD TO HEADACHES, DIZZINESS, CONFUSION, &, IN SEVERE CASES, CAN BE FATAL.

SECONDHAND SMOKE

EXPOSURE TO SMOKE FROM INDIVIDUALS WHO SMOKE INCREASES THE RISK OF RESPIRATORY INFECTIONS, SUDDEN INFANT DEATH SYNDROME (SIDS), & CAN WORSEN EXISTING RESPIRATORY CONDITIONS.

VOLATILE ORGANIC COMPOUNDS

FOUND IN HOUSEHOLD PRODUCTS LIKE PAINTS & CLEANING AGENTS, VOCs CAN LEAD TO HEADACHES, EYE & THROAT IRRITATION, & MAY CAUSE LONG-TERM HEALTH PROBLEMS WITH PROLONGED EXPOSURE.

PARTICULATE MATTER (PM)

FINE PARTICLES FROM INDUSTRIAL POLLUTION CAN ENTER THE LUNGS & BLOODSTREAM, LEADING TO RESPIRATORY PROBLEMS, CARDIOVASCULAR ISSUES, & EVEN PREMATURE DEATH.

SULFUR DIOXIDE (SO₂)

EMITTED BY INDUSTRIAL PROCESSES, SO₂ IRRITATES THE RESPIRATORY TRACT & WORSENS ASTHMA. IT ALSO REACTS WITH OTHER POLLUTANTS FORMING HARMFUL COMPOUNDS.

NITROGEN DIOXIDE (NO₂)

COMMON IN URBAN POLLUTION, NO₂ WORSENS RESPIRATORY CONDITIONS, PARTICULARLY IN CHILDREN, & CONTRIBUTES TO SMOG FORMATION.

AMMONIA (NH₃)

FROM ANIMAL WASTE, AMMONIA CAN IRRITATE THE EYES, THROAT, & LUNGS. PROLONGED EXPOSURE CAN LEAD TO CHRONIC RESPIRATORY ISSUES.

HYDROGEN SULFIDE (H₂S)

RELEASED FROM SEWAGE & INDUSTRIAL PROCESSES, H₂S CAN CAUSE EYE & THROAT IRRITATION, NAUSEA, &, IN HIGH CONCENTRATIONS IT IS DEADLY.

ENVIRONMENTAL HYGIENE

HEALTH & DISEASE PREVENTION

PROPER ENVIRONMENTAL HYGIENE HELPS PREVENT THE SPREAD OF DISEASES. CLEAN & SANITARY ENVIRONMENTS REDUCE THE BREEDING GROUNDS FOR DISEASE-CARRYING ORGANISMS, SUCH AS MOSQUITOES & BACTERIA. THIS IS ESPECIALLY CRITICAL IN PREVENTING WATERBORNE DISEASES LIKE CHOLERA & VECTOR-BORNE DISEASES LIKE MALARIA.

AIR QUALITY

MAINTAINING CLEAN AIR IS ESSENTIAL FOR RESPIRATORY HEALTH. REDUCING AIR POLLUTION, BOTH INDOORS & OUTDOORS, CAN LOWER THE RISK OF RESPIRATORY CONDITIONS LIKE ASTHMA & LUNG DISEASES. POOR AIR QUALITY CAN ALSO EXACERBATE EXISTING HEALTH ISSUES.

SAFE DRINKING WATER

ENSURING CLEAN & SAFE DRINKING WATER IS FUNDAMENTAL FOR HEALTH. CONTAMINATED WATER SOURCES LEAD TO VARIOUS WATERBORNE DISEASES. PROPER SANITATION & WATER TREATMENT ARE VITAL FOR PREVENTING ILLNESSES.

FOOD SAFETY

ENVIRONMENTAL HYGIENE
PLAYS A ROLE IN FOOD
SAFETY. CONTAMINATED
ENVIRONMENTS LEAD TO
FOODBORNE ILLNESSES.
PROPER FOOD STORAGE,
HANDLING, & WASTE
DISPOSAL ARE ESSENTIAL TO
PREVENT FOOD
CONTAMINATION.

REDUCING ALLERGENS

PROPER ENVIRONMENTAL
HYGIENE REDUCES EXPOSURE
TO ALLERGENS SUCH AS DUST
MITES, MOLD, & DANDER.
THIS IS CRUCIAL FOR
INDIVIDUALS WITH
ALLERGIES & RESPIRATORY
CONDITIONS.

MENTAL HEALTH

CLEAN AND WELL-MAINTAINED ENVIRONMENTS HAVE A POSITIVE IMPACT ON MENTAL HEALTH.

DISORDERLY OR DIRTY SURROUNDINGS CONTRIBUTE TO STRESS & ANXIETY, WHILE CLEAN SPACES PROMOTE A SENSE OF WELL-BEING.

BIODIVERSITY & ECOSYSTEM HEALTH

ENVIRONMENTAL HYGIENE EXTENDS BEYOND HUMAN HEALTH. MAINTAINING CLEAN ECOSYSTEMS & NATURAL HABITATS IS ESSENTIAL FOR BIODIVERSITY. POLLUTION & HABITAT DESTRUCTION CAN HAVE FAR-REACHING ECOLOGICAL CONSEQUENCES.

CLIMATE CHANGE MITIGATION

REDUCING POLLUTION & ADOPTING SUSTAINABLE PRACTICES AS PART OF ENVIRONMENTAL HYGIENE EFFORTS HELPS MITIGATE CLIMATE CHANGE. LOWERING GREENHOUSE GAS EMISSIONS & CONSERVING RESOURCES ARE INTEGRAL TO THIS.

ECONOMIC BENEFITS

CLEAN AND HEALTHY ENVIRONMENTS LEAD TO ECONOMIC BENEFITS. FEWER HEALTHCARE COSTS, INCREASED PRODUCTIVITY, & IN SOME CASES ENHANCED TOURISM RESULT FROM A FOCUS ON ENVIRONMENTAL HYGIENE.

INDOOR PLANTS

INDOOR PLANTS
SIGNIFICANTLY IMPROVE AIR
QUALITY BY SERVING AS
NATURAL AIR PURIFIERS.
THEY DO THIS THROUGH A
PROCESS CALLED
PHYTOREMEDIATION, IN
WHICH THEY ABSORB &
METABOLIZE POLLUTANTS
FROM THE AIR.

HERE IS HOW INDOOR PLANTS
CONTRIBUTE TO BETTER
INDOOR AIR QUALITY:

REMOVAL OF HARMFUL COMPOUNDS

INDOOR AIR CAN CONTAIN VARIOUS POLLUTANTS, SUCH AS VOLATILE ORGANIC COMPOUNDS (VOCS) & FORMALDEHYDE, WHICH ARE EMITTED BY HOUSEHOLD PRODUCTS, FURNITURE, & BUILDING MATERIALS. MANY INDOOR PLANTS CAN ABSORB & BREAK DOWN THESE CHEMICALS, REDUCING THEIR CONCENTRATION IN THE AIR.

NOISE REDUCTION

SOME LARGER, LEAFY PLANTS CAN ABSORB & DIFFRACT SOUND, HELPING TO REDUCE BACKGROUND NOISE LEVELS IN YOUR HOME.

INCREASED OXYGEN PRODUCTION

THROUGH PHOTOSYNTHESIS,
PLANTS TAKE IN CARBON
DIOXIDE & RELEASE OXYGEN.
THIS PROCESS NATURALLY
INCREASES OXYGEN LEVELS
IN YOUR HOME, MAKING THE
AIR FRESHER & MORE
PLEASANT TO BREATHE.

HUMIDITY REGULATION

PLANTS RELEASE WATER
VAPOR DURING
TRANSPIRATION, WHICH
HELPS INCREASE INDOOR
HUMIDITY LEVELS. THIS IS
BENEFICIAL IN DRY INDOOR
ENVIRONMENTS, AS PROPER
HUMIDITY IMPROVES
RESPIRATORY COMFORT &
REDUCES THE TRANSMISSION
OF AIRBORNE VIRUSES.

REDUCED AIRBORNE PARTICLES

THE PRESENCE OF INDOOR PLANTS HELPS TRAP & REDUCE AIRBORNE PARTICLES, INCLUDING DUST & ALLERGENS. THIS CAN BE PARTICULARLY HELPFUL FOR INDIVIDUALS WITH ALLERGIES OR ASTHMA.

PSYCHOLOGICAL BENEFITS

INDOOR PLANTS HAVE BEEN SHOWN TO HAVE PSYCHOLOGICAL BENEFITS, INCLUDING STRESS REDUCTION & IMPROVED MOOD. THESE BENEFITS INDIRECTLY CONTRIBUTE TO BETTER INDOOR AIR QUALITY BY PROMOTING OVERALL WELL-BEING.

WHILE INDOOR PLANTS CAN BE EFFECTIVE AT IMPROVING AIR QUALITY, IT IS ESSENTIAL TO CHOOSE SPECIFIC PLANTS FOR YOUR INDOOR ENVIRONMENT & TAKE PROPER CARE OF THEM. SOME PLANTS ARE MORE EFFECTIVE AT PURIFYING THE AIR THAN OTHERS, SO CONSIDER PLANTS LIKE SPIDER PLANTS, SNAKE PLANTS, PEACE LILIES, & POTHOS FOR THEIR AIR-PURIFYING QUALITIES. ADDITIONALLY, REGULAR WATERING & MAINTENANCE ARE CRUCIAL TO KEEP THE PLANTS HEALTHY & ACTIVE IN IMPROVING AIR QUALITY.

MANY PHONE APPS WHICH SCAN PLANTS & SHOW YOU ALL RELEVANT DATA EXIST.

TREE EXPOSURE

EXPOSURE TO TREES & GREEN SPACES HAS SEVERAL NOTABLE BENEFITS FOR AIR QUALITY & OVERALL WELL-BEING.

AIR POLLUTION REDUCTION

TREES HELP IMPROVE AIR QUALITY BY ABSORBING VARIOUS AIR POLLUTANTS, INCLUDING CARBON DIOXIDE (CO₂), SULFUR DIOXIDE (SO₂), & NITROGEN OXIDES (NO_x). THEY ACT AS NATURAL AIR FILTERS, REDUCING THE CONCENTRATION OF THESE HARMFUL SUBSTANCES IN THE ATMOSPHERE.

OXYGEN PRODUCTION

THROUGH PHOTOSYNTHESIS, TREES RELEASE OXYGEN (O₂) INTO THE AIR. THIS PROCESS CONTRIBUTES TO THE OXYGEN LEVELS IN THE ENVIRONMENT, MAKING THE AIR MORE BREATHABLE & HEALTHIER FOR ALL ANIMALS.

FINE PARTICLE REMOVAL

TREES CAPTURE & FILTER FINE PARTICULATE MATTER (PM_{2.5}) FROM THE AIR. PM_{2.5} PARTICLES ARE TINY & CAN BE HARMFUL WHEN INHALED, CONTRIBUTING TO RESPIRATORY PROBLEMS & OTHER HEALTH ISSUES.

COOLING EFFECT

THE SHADE PROVIDED BY TREES HELPS REDUCE URBAN HEAT ISLANDS & KEEPS TEMPERATURES COOLER IN HOT WEATHER. THIS COOLING EFFECT IMPROVES AIR QUALITY BY REDUCING THE FORMATION OF GROUND-LEVEL OZONE, A HARMFUL AIR POLLUTANT.

LOWERING STRESS

SPENDING TIME IN GREEN SPACES WITH TREES HAS BEEN LINKED TO REDUCED STRESS LEVELS. EXPOSURE TO NATURE & THE SOOTHING PRESENCE OF TREES CAN PROMOTE RELAXATION & MENTAL HEALTH. MORE RECENT RESEARCH CLAIMS TREE PHEROMONES CAUSE THIS, AS WELL AS THOUGHTS.

AROMATHERAPY

THE NATURAL SCENTS RELEASED BY TREES, SUCH AS PINE, CEDAR, & EUCALYPTUS, HAVE A CALMING & MOOD-ENHANCING EFFECT ON INDIVIDUALS. BREATHING IN THESE NATURAL FRAGRANCES REDUCES STRESS & IMPROVES MENTAL WELL-BEING.

IMPROVED LUNG HEALTH

ACCESS TO GREEN SPACES WITH TREES ENCOURAGES OUTDOOR ACTIVITIES LIKE WALKING & JOGGING, WHICH CAN IMPROVE LUNG HEALTH & OVERALL PHYSICAL FITNESS. THIS, IN TURN, CONTRIBUTES TO BETTER RESPIRATORY FUNCTION.

ENHANCED IMMUNITY

SOME STUDIES SUGGEST THAT PHYTONCIDES, NATURAL CHEMICALS EMITTED BY TREES, MAY HAVE IMMUNE-BOOSTING PROPERTIES.

BREATHING IN THESE COMPOUNDS DURING FOREST WALKS OR TIME SPENT IN WOODED AREAS HELP STRENGTHEN THE IMMUNE SYSTEM.

ENHANCED OVERALL WELL-BEING

EXPOSURE TO TREES & NATURAL ENVIRONMENTS HAS BEEN ASSOCIATED WITH INCREASED FEELINGS OF WELL-BEING, IMPROVED MOOD, & REDUCED SYMPTOMS OF ANXIETY & DEPRESSION.

RESTORATIVE EFFECTS

NATURAL SETTINGS WITH TREES HAVE A RESTORATIVE EFFECT ON MENTAL FATIGUE & COGNITIVE FUNCTION. SPENDING TIME IN SUCH ENVIRONMENTS CAN HELP RESTORE ATTENTION & MENTAL CLARITY.

COMMUNITY ENGAGEMENT

GREEN SPACES WITH TREES OFTEN SERVE AS COMMUNAL GATHERING PLACES, FOSTERING SOCIAL CONNECTIONS & COMMUNITY ENGAGEMENT. THESE INTERACTIONS CONTRIBUTE TO A SENSE OF BELONGING & WELL-BEING.

IN SUMMARY, EXPOSURE TO
TREES & GREEN
ENVIRONMENTS OFFERS A
WIDE RANGE OF BENEFITS,
INCLUDING THE
IMPROVEMENT OF AIR
QUALITY & OVERALL WELL-
BEING. TREES PLAY A VITAL
ROLE IN MITIGATING AIR
POLLUTION, REDUCING
STRESS, & PROVIDING SPACES
FOR PHYSICAL & MENTAL
REJUVENATION, ULTIMATELY
CONTRIBUTING TO A
HEALTHIER & HAPPIER
POPULATION.

LIFE EXPECTANCY

AIR QUALITY HAS A
SIGNIFICANT IMPACT ON LIFE
EXPECTANCY.

POOR AIR QUALITY,
CHARACTERIZED BY HIGH
LEVELS OF AIR POLLUTANTS,
HAS ADVERSE EFFECTS ON
HUMAN HEALTH, LEADING TO
A REDUCTION IN LIFE
EXPECTANCY.

HERE'S HOW AIR QUALITY
INFLUENCES LIFE
EXPECTANCY:

EXPOSURE TO AIR POLLUTANTS, SUCH AS FINE PARTICULATE MATTER (PM_{2.5}), GROUND-LEVEL OZONE (O₃), & NITROGEN DIOXIDE (NO₂), LEAD TO RESPIRATORY DISEASES SUCH AS ASTHMA, CHRONIC OBSTRUCTIVE PULMONARY DISEASE (COPD), & CARDIOVASCULAR DISEASES. PROLONGED EXPOSURE TO THESE POLLUTANTS INCREASES THE RISK OF PREMATURE DEATH FROM SUCH CONDITIONS.

CANCER

AIR POLLUTANTS, INCLUDING VOLATILE ORGANIC COMPOUNDS (VOCs) & HAZARDOUS CHEMICALS, CONTRIBUTE TO THE DEVELOPMENT OF LUNG CANCER & OTHER TYPES OF CANCER. LONG-TERM EXPOSURE TO CARCINOGENS IN THE AIR REDUCES LIFE EXPECTANCY DUE TO INCREASED CANCER RISK.

PREMATURE DEATH

LONG-TERM EXPOSURE TO HIGH LEVELS OF AIR POLLUTION IS ASSOCIATED WITH AN INCREASED RISK OF PREMATURE DEATH. STUDIES HAVE SHOWN THAT INDIVIDUALS LIVING IN AREAS WITH POOR AIR QUALITY MAY EXPERIENCE A REDUCTION IN LIFE EXPECTANCY, WITH THE EXTENT OF THE REDUCTION VARYING DEPENDING ON THE LEVEL OF EXPOSURE & INDIVIDUAL SUSCEPTIBILITY.

EXACERBATION OF EXISTING CONDITIONS

AIR POLLUTION WORSENS
PREEXISTING HEALTH
CONDITIONS, SUCH AS HEART
DISEASE & DIABETES. THIS
EXACERBATION LEADS TO
MORE SEVERE HEALTH
PROBLEMS & REDUCED LIFE
EXPECTANCY.

IMPACT ON VULNERABLE POPULATIONS

VULNERABLE POPULATIONS,
SUCH AS THE ELDERLY,
CHILDREN, & INDIVIDUALS
WITH PREEXISTING HEALTH
CONDITIONS, ARE MORE
SUSCEPTIBLE TO THE
ADVERSE EFFECTS OF POOR
AIR QUALITY.

FOR THESE GROUPS, THE
IMPACT ON LIFE EXPECTANCY
CAN BE PARTICULARLY
PRONOUNCED.

SOCIAL & ECONOMIC DISPARITIES

LOW-INCOME COMMUNITIES
OFTEN EXPERIENCE HIGHER
LEVELS OF AIR POLLUTION
DUE TO FACTORS LIKE
PROXIMITY TO INDUSTRIAL
AREAS & TRAFFIC.
THIS CONTRIBUTES TO
HEALTH DISPARITIES &
REDUCES LIFE EXPECTANCY
IN THESE COMMUNITIES.

Chapter 7

SUNLIGHT

SUNLIGHT AFFECTS OUR
HEALTH IN VARIOUS WAYS. IT
CAN METAPHORICALLY BE A
FRIEND & A FOE. KNOWLEDGE
OF THE SUN IS POWERFUL.

CORTISOL

SUNLIGHT & CORTISOL REGULATION

SUNLIGHT EXPOSURE
REDUCES CORTISOL
PRODUCTION IN THE BODY.

NATURAL LIGHT,
PARTICULARLY IN THE
MORNING, HELPS REGULATE
THE CIRCADIAN RHYTHM,
LEADING TO A DECREASE IN
CORTISOL LEVELS.

LOWER CORTISOL LEVELS
DURING THE DAY
CONTRIBUTE TO A SENSE OF
WAKEFULNESS & ALERTNESS.

SUNLIGHT & MOOD

SUNLIGHT EXPOSURE TRIGGERS THE RELEASE OF SEROTONIN, WHICH CAN HAVE A POSITIVE IMPACT ON MOOD.

INCREASED SEROTONIN LEVELS HELP REDUCE STRESS & ANXIETY, INDIRECTLY INFLUENCING CORTISOL LEVELS.

SUNLIGHT & MOOD

SUNLIGHT IS A PRIMARY SOURCE OF VITAMIN D, WHICH REGULATES HORMONES, INCLUDING CORTISOL. ADEQUATE VITAMIN D LEVELS SUPPORT BALANCED CORTISOL PRODUCTION. VITAMIN D DEFICIENCY IS LINKED TO CORTISOL IMBALANCES.

SUNLIGHT & SLEEP

EXPOSURE TO NATURAL LIGHT
DURING THE DAY HELPS
MAINTAIN A HEALTHY SLEEP-
WAKE CYCLE.

PROPER SLEEP HYGIENE,
INFLUENCED BY SUNLIGHT
EXPOSURE, PREVENTS
CORTISOL SPIKES WHICH
DISRUPT SLEEP.

WELL-REGULATED SLEEP
PATTERN CONTRIBUTES TO
OPTIMAL CORTISOL BALANCE.

SUNLIGHT & ENERGY LEVELS

SUNLIGHT EXPOSURE BOOSTS
ENERGY LEVELS BY
AFFECTING CORTISOL
RHYTHMS. IT PROMOTES
ALERTNESS & PREVENTS
DAYTIME LETHARGY,
REGULATING CORTISOL

SUNLIGHT & SKIN HEALTH

SUNLIGHT EXPOSURE
AFFECTS THE SKIN'S
CORTISOL RECEPTORS.
OVEREXPOSURE TO SUNLIGHT
LEADS TO SKIN ISSUES IF YOU
ARE NOT ON A WHOLE FOODS
PLANT BASED DIET. THOUGH
EXTREME EXPOSURE IS
ALWAYS DANGEROUS.
MODERATE EXPOSURE HAS
POSITIVE EFFECTS.
SKIN HEALTH & CORTISOL
BALANCE ARE
INTERCONNECTED.

MELATONIN

MELATONIN & SLEEP

MELATONIN REGULATES THE
SLEEP-WAKE CYCLE,
PROMOTING SLEEP AT NIGHT.
IT DECREASES THE TIME IT
TAKES TO FALL ASLEEP &
IMPROVES OVERALL SLEEP
QUALITY.

MELATONIN SECRETION
INCREASES IN RESPONSE TO
DARKNESS, SIGNALING THE
BODY TO PREPARE FOR REST.

MELATONIN & CIRCARDIAN RHYTHM

MELATONIN PLAYS A CRUCIAL ROLE IN REGULATING THE BODY'S INTERNAL CLOCK. IT HELPS SYNCHRONIZE VARIOUS BIOLOGICAL PROCESSES, INCLUDING BODY TEMPERATURE & HORMONE PRODUCTION, TO THE DAY-NIGHT CYCLE. DISRUPTIONS IN MELATONIN PRODUCTION LEAD TO CIRCADIAN RHYTHM DISORDERS.

MELATONIN & ANTIOXIDANT PROPERTIES

MELATONIN IS A POTENT ANTIOXIDANT, PROTECTING CELLS FROM OXIDATIVE STRESS & DAMAGE. IT HELPS NEUTRALIZE HARMFUL FREE RADICALS, REDUCING THE RISK OF VARIOUS DISEASES.

MELATONIN & IMMUNE FUNCTION

MELATONIN HAS IMMUNE-MODULATING EFFECTS, INFLUENCING THE IMMUNE SYSTEM'S RESPONSE.

IT ENHANCES IMMUNE FUNCTION & CONTRIBUTES TO THE BODY'S DEFENSE AGAINST INFECTIONS. MELATONIN'S ROLE IN IMMUNITY IS AN AREA OF ONGOING RESEARCH.

MELATONIN & MENTAL HEALTH

MELATONIN HAS A POSITIVE IMPACT ON MENTAL HEALTH, REDUCING SYMPTOMS OF DEPRESSION & ANXIETY. IT HELPS STABILIZE MOOD & ALLEVIATE SYMPTOMS OF MOOD DISORDERS.

MELATONIN & AGING

MELATONIN LEVELS TEND TO DECREASE AS PEOPLE AGE. SOME RESEARCH SUGGESTS THAT MELATONIN SUPPLEMENTATION MIGHT HAVE ANTI-AGING EFFECTS. ITS ROLE IN LONGEVITY IS A TOPIC OF ONGOING INVESTIGATION.

MELATONIN & JET LAG

MELATONIN SUPPLEMENTS ARE USED TO ALLEVIATE JET LAG. TIMING MELATONIN INTAKE HELPS ADJUST TO NEW TIME ZONES MORE QUICKLY. IT CAN MITIGATE THE EFFECTS OF DISRUPTED CIRCADIAN RHYTHMS DUE TO TRAVEL. IT IS HEALTHIER TO EXPOSE YOURSELF TO MORNING SUNLIGHT IN THE NEW LOCATION.

VITAMIN D

SUNLIGHT

WHEN YOUR SKIN IS EXPOSED TO SUNLIGHT, IT PRODUCES VITAMIN D NATURALLY. THIS IS ESSENTIAL BECAUSE VITAMIN D HELPS YOUR BODY ABSORB CALCIUM, PROMOTING HEALTHY BONE DEVELOPMENT.

ARTIFICIAL SOURCES

YOU CAN ALSO OBTAIN VITAMIN D THROUGH SUPPLEMENTS OR FORTIFIED FOODS. THESE SOURCES PROVIDE VITAMIN D IN A CONCENTRATED FORM WHEN NATURAL SUNLIGHT EXPOSURE IS LIMITED.

IMPORTANCE

VITAMIN D IS CRUCIAL FOR
SEVERAL REASONS:

BONE HEALTH: IT AIDS IN
CALCIUM ABSORPTION,
PREVENTING CONDITIONS
LIKE RICKETS IN CHILDREN &
OSTEOPOROSIS IN ADULTS.

IMMUNE SYSTEM: VITAMIN D
HELPS YOUR BODY FIGHT
INFECTIONS.

MOOD REGULATION: SOME
STUDIES SUGGEST THAT
VITAMIN D MAY HAVE A ROLE
IN REGULATING MOOD &
REDUCING THE RISK OF
DEPRESSION.

REDUCING INFLAMMATION: IT
MAY HELP IN REDUCING
INFLAMMATION IN THE BODY,
WHICH IS IMPORTANT FOR
OVERALL HEALTH.

DEFICIENCY

LACK OF ADEQUATE VITAMIN D LEADS TO WEAK BONES, FATIGUE, MUSCLE PAIN, & AN INCREASED RISK OF CERTAIN DISEASES. THEREFORE, ENSURING SUFFICIENT VITAMIN D INTAKE IS CRUCIAL FOR OVERALL HEALTH.

SKIN CANCER

VITAMIN D COMES ALONGSIDE RADIOACTIVITY FROM THE SUN WHICH CAUSES SKIN CANCER. TO AVOID IT, IT IS IMPORTANT TO HAVE A DIET FILLED WITH ANTI-CANCER PLANT-BASED WHOLE-FOODS & TO AVOID CANCER ENHANCING FOODS SUCH AS ALL ANIMAL DERIVED PRODUCTS.

ARTIFICIAL LIGHTS

THE EFFECTS OF ARTIFICIAL LIGHTS ON HEALTH ARE DIVERSE & CAN BE BOTH POSITIVE & NEGATIVE, DEPENDING ON VARIOUS FACTORS SUCH AS THE TYPE OF LIGHTING, INTENSITY, & TIMING. PROPER LIGHTING DESIGN, CONTROLLING EXPOSURE TO ARTIFICIAL LIGHTS IN THE EVENING, & UNDERSTANDING THE IMPACT OF LIGHTING ON CIRCADIAN RHYTHMS ARE ESSENTIAL FOR MAINTAINING GOOD HEALTH & WELL-BEING IN A WORLD WHERE ARTIFICIAL LIGHTING IS UBIQUITOUS.

CIRCARDIAN RHYTHM

ARTIFICIAL LIGHTS, ESPECIALLY THOSE WITH A COOL & BLUISH SPECTRUM, DISRUPTS THE BODY'S NATURAL CIRCADIAN RHYTHM. EXPOSURE TO SUCH LIGHTING IN THE EVENING OR NIGHT SIGNALS TO THE BODY THAT IT IS DAYTIME, MAKING IT DIFFICULT TO FALL ASLEEP & NEGATIVELY IMPACTING SLEEP QUALITY

MIGRAINE & HEADACHE TRIGGERS

SOME INDIVIDUALS ARE SENSITIVE TO FLICKERING OR POORLY MODULATED ARTIFICIAL LIGHTS, WHICH CAN TRIGGER MIGRAINES OR HEADACHES.

SLEEP DISRUPTION

EXPOSURE TO ARTIFICIAL LIGHTS, PARTICULARLY FROM SCREENS LIKE SMARTPHONES & COMPUTERS, BEFORE BEDTIME LEAD TO SLEEP PROBLEMS. THE BLUE LIGHT EMITTED FROM THESE DEVICES INTERFERES WITH THE PRODUCTION OF THE SLEEP HORMONE: MELATONIN.

FORTUNATELY MOST SCREENS NOW HAVE BUILT IN NIGHT LIGHT OR RED LIGHT PROGRAMS WHICH FILTER THE BLUE LIGHT. IF NOT, YOU CAN DOWNLOAD FREE SOFTWARE WHICH DOES IT, & SCHEDULE IT TO TURN ON AUTOMATICALLY DURING A CERTAIN PERIOD OF TIME.

MOOD & PRODUCTIVITY

THE COLOR TEMPERATURE & INTENSITY OF ARTIFICIAL LIGHTING CAN INFLUENCE MOOD & PRODUCTIVITY. BRIGHT, COOL LIGHTING IS OFTEN USED IN OFFICES TO PROMOTE ALERTNESS & FOCUS, WHILST WARM, DIM LIGHTING IN HOME SETTINGS CAN CREATE A COZY & RELAXING ATMOSPHERE.

EYE HEALTH

PROLONGED EXPOSURE TO GLARE FROM ARTIFICIAL LIGHTS, ESPECIALLY IN POORLY DESIGNED OR OVERLY BRIGHT ENVIRONMENTS, STRAINS THE EYES & LEADS TO DISCOMFORT. PROPER LIGHTING DESIGN IS IMPORTANT FOR REDUCING EYE STRAIN.

SHIFT WORK & HEALTH

PEOPLE WHO WORK NIGHT SHIFTS OR IRREGULAR HOURS ARE EXPOSED TO ARTIFICIAL LIGHTS DURING TIMES WHEN THEIR BODIES EXPECT DARKNESS. THIS LEADS TO A RANGE OF HEALTH ISSUES, INCLUDING SLEEP DISORDERS & A HIGHLY INCREASED RISK OF CERTAIN CHRONIC CONDITIONS.

LIGHT THERAPY

ON THE POSITIVE SIDE, ARTIFICIAL LIGHT IS USED IN LIGHT THERAPY TO TREAT CONDITIONS SUCH AS SEASONAL AFFECTIVE DISORDER (SAD) & CIRCADIAN RHYTHM DISORDERS.

CONTROLLED EXPOSURE TO SPECIFIC ARTIFICIAL LIGHTS HAS THERAPEUTIC BENEFITS.

Chapter 8

CAN BE A FORM OF
RELAXATION WHICH REDUCES
STRESS & ANXIETY. IT
ALLOWS YOUR MIND TO SHIFT
AWAY FROM THE DAY'S
WORRIES.

IMPROVED SLEEP QUALITY

READING CAN SIGNAL TO
YOUR BODY THAT IT IS TIME
TO WIND DOWN & PREPARE
FOR SLEEP. THIS CAN LEAD TO
BETTER SLEEP QUALITY &
MORE RESTFUL NIGHTS.

ENHANCED SLEEP ROUTINE

ESTABLISHING A BEDTIME

READING PROVIDES AN
OPPORTUNITY TO ESCAPE
INTO DIFFERENT WORLDS &
NARRATIVES, TAKING YOUR
MIND OFF YOUR OWN
CONCERNS & ALLOWING YOU
TO UNWIND.

MENTAL STIMULATION

WHILST RELAXATION IS IMPORTANT, READING CAN ALSO MENTALLY STIMULATE YOU, KEEPING YOUR MIND ACTIVE IN A POSITIVE & NON-STRESSFUL WAY. (THE BOOK YOU ARE CURRENTLY READING, FOR EXAMPLE)

EXPANDED KNOWLEDGE

READING BEFORE SLEEP ALLOWS YOU TO ACQUIRE KNOWLEDGE OR ENGAGE IN CREATIVE OR THOUGHT-PROVOKING MATERIAL. IT IS AN OPPORTUNITY FOR PERSONAL GROWTH.
(HINT, HINT ;)

REDUCTION OF SCREEN-TIME

UNLIKE MOST SCREENS (PHONES, TABLETS, TVS), WHICH EMIT BLUE LIGHT THAT CAN INTERFERE WITH SLEEP, PRINTED BOOKS OR E-READERS WITH NO BACKLIGHTING ARE NOT DISRUPTIVE TO YOUR SLEEP-WAKE CYCLE.

STATE OF RELAXATION &
RESTFULNESS, HELPING YOU
TO FALL ASLEEP EASIER.

Chapter 9

MEDITATION

MEDITATION PROMOTES
THOUGHTFULNESS,
AWARENESS & EVEN LONGER
LIFESPAN.

THOUGHTFULNESS & CALMNESS

MINDFULNESS

MEDITATION OFTEN INVOLVES PRACTICES WHICH CULTIVATE MINDFULNESS. MINDFULNESS ENCOURAGES YOU TO BECOME FULLY PRESENT IN THE MOMENT, OBSERVING YOUR THOUGHTS, FEELINGS, & SENSATIONS WITHOUT JUDGMENT. THIS AWARENESS OF THE PRESENT CAN REDUCE THE RACING, CHAOTIC NATURE OF THOUGHTS, LEADING TO THOUGHTFULNESS & CALM.

STRESS REDUCTION

MEDITATION HAS BEEN SHOWN TO REDUCE THE BODY'S STRESS RESPONSE. WHEN STRESS LEVELS DECREASE, THE MIND BECOMES LESS REACTIVE TO EXTERNAL STIMULI, RESULTING IN A CALMER MENTAL STATE.

EMOTIONAL REGULATION

MEDITATION HELPS DEVELOP EMOTIONAL AWARENESS & REGULATION. THIS MEANS YOU BECOME BETTER AT HANDLING STRONG EMOTIONS & NEGATIVE THOUGHT PATTERNS, LEADING TO A MORE THOUGHTFUL & EMOTIONALLY BALANCED MINDSET.

REDUCTION IN ANXIETY

MEDITATION CAN BE EFFECTIVE IN REDUCING SYMPTOMS OF ANXIETY. WHEN ANXIETY DECREASES, THE MIND IS LESS PREOCCUPIED WITH WORRIESOME OR INTRUSIVE THOUGHTS, ALLOWING FOR A MORE THOUGHTFUL & CALM MENTAL STATE.

IMPROVED FOCUS

MEDITATION PRACTICES INVOLVE FOCUSING ATTENTION ON A PARTICULAR OBJECT, THOUGHT, OR BREATH. THIS ENHANCES YOUR ABILITY TO CONCENTRATE & THINK CLEARER, CONTRIBUTING TO THOUGHTFULNESS.

ENHANCED SELF-AWARENESS

REGULAR MEDITATION CAN LEAD TO GREATER SELF-AWARENESS. THIS SELF-AWARENESS ALLOWS YOU TO RECOGNIZE & UNDERSTAND YOUR THOUGHT PATTERNS, LEADING TO MORE THOUGHTFUL & DELIBERATE THINKING.

REDUCED MENTAL-CHATTER

MANY PEOPLE EXPERIENCE A CONSTANT STREAM OF INTERNAL CHATTER & OVERTHINKING. MEDITATION CAN HELP QUIET THIS MENTAL NOISE, CREATING SPACE FOR MORE DELIBERATE & REFLECTIVE THOUGHT.

MIND-BODY CONNECTION

MEDITATION PROMOTES A STRONGER CONNECTION BETWEEN THE MIND & THE BODY. WHEN YOU ARE IN TUNE WITH YOUR BODY'S SENSATIONS & SIGNALS, YOU CAN MORE EFFECTIVELY MANAGE STRESS & MAINTAIN A CALM DEMEANOR.

NEUROPLASTICITY

MEDITATION HAS BEEN SHOWN TO HAVE A POSITIVE IMPACT ON THE BRAIN'S PLASTICITY, LEADING TO CHANGES IN THE STRUCTURE & FUNCTION OF THE BRAIN. THIS ENHANCES COGNITIVE FUNCTIONS RELATED TO THOUGHTFULNESS & CALMNESS.

BETTER DECISION-MAKING

WITH A CALM & THOUGHTFUL
MIND, YOU ARE MORE LIKELY
TO MAKE CONSIDERED &
RATIONAL DECISIONS,
RATHER THAN IMPULSIVE OR
EMOTIONAL ONES.

MEDITATION IS A PRACTICE
WHICH INVOLVES TRAINING
THE MIND, & OVER TIME, IT
CAN LEAD TO SIGNIFICANT
CHANGES IN HOW YOU THINK
& FEEL. BY PROMOTING
AWARENESS, REDUCING
STRESS, & IMPROVING
EMOTIONAL REGULATION,
MEDITATION CONTRIBUTES
TO A MORE THOUGHTFUL &
CALMER STATE OF MIND.

LONGEVITY

STRESS-REDUCTION

ONE OF THE MOST WELL-DOCUMENTED EFFECTS OF MEDITATION IS ITS ABILITY TO REDUCE STRESS. CHRONIC STRESS IS ASSOCIATED WITH VARIOUS HEALTH PROBLEMS, INCLUDING CARDIOVASCULAR DISEASES & WEAKENED IMMUNE FUNCTION. BY LOWERING STRESS LEVELS, MEDITATION MAY HELP MITIGATE THESE RISKS & PROMOTE A LONGER, HEALTHIER LIFE.

BLOOD-PRESSURE CONTROL

MEDITATION HAS BEEN SHOWN TO LOWER BLOOD PRESSURE, WHICH IS A SIGNIFICANT RISK FACTOR FOR HEART DISEASE & STROKE. BY MAINTAINING HEALTHY BLOOD PRESSURE, INDIVIDUALS WHO MEDITATE MAY REDUCE THEIR RISK OF THESE LIFE-THREATENING CONDITIONS.

EMOTIONAL WELL-BEING

MEDITATION IMPROVES EMOTIONAL WELL-BEING & MENTAL HEALTH. IT MAY REDUCE THE RISK OF CONDITIONS LIKE DEPRESSION & ANXIETY, WHICH HAVE A NEGATIVE IMPACT ON OVERALL HEALTH & LONGEVITY.

INFLAMMATION REDUCTION

CHRONIC INFLAMMATION IS ASSOCIATED WITH A WIDE RANGE OF DISEASES, FROM CANCER TO DIABETES. SOME STUDIES SUGGEST THAT MEDITATION LOWERS LEVELS OF INFLAMMATORY MARKERS IN THE BODY, REDUCING THE RISK OF THESE DISEASES & PROMOTING LONGEVITY.

IMMUNE SYSTEM SUPPORT

MEDITATION POSITIVELY INFLUENCES THE IMMUNE SYSTEM, MAKING IT MORE EFFECTIVE IN FIGHTING INFECTIONS & DISEASES. A STRONGER IMMUNE SYSTEM CONTRIBUTES TO A LONGER & HEALTHIER LIFE.

TELOMERE LENGTH

RESEARCH SUGGESTS THAT MEDITATION HAS A POSITIVE IMPACT ON TELOMERE LENGTH. TELOMERES ARE PROTECTIVE CAPS ON THE ENDS OF CHROMOSOMES, & LONGER TELOMERES ARE ASSOCIATED WITH LONGER LIFE. WHILE THIS IS AN EMERGING AREA OF STUDY, MEDITATION'S POTENTIAL ROLE IN TELOMERE PRESERVATION IS INTRIGUING.

BETTER SLEEP

MEDITATION IMPROVES SLEEP QUALITY. QUALITY SLEEP IS ESSENTIAL FOR OVERALL WELL-BEING & HAS A POSITIVE IMPACT ON LONGEVITY.

HEALTHY LIFESTYLE CHOICES

INDIVIDUALS WHO REGULARLY PRACTICE MEDITATION OFTEN ADOPT HEALTHIER LIFESTYLE CHOICES. THIS CAN INCLUDE IMPROVED DIET, EXERCISE, & A REDUCED LIKELIHOOD OF ENGAGING IN RISKY BEHAVIORS, ALL OF WHICH CONTRIBUTE TO A LONGER LIFE.

COGNITIVE HEALTH

MEDITATION HAS A PROTECTIVE EFFECT ON COGNITIVE FUNCTION, REDUCING THE RISK OF COGNITIVE DECLINE & CONDITIONS LIKE ALZHEIMER'S DISEASE.

STRONGER BRAIN FUNCTIONS

ENHANCED BRAIN STRUCTURE

REGULAR MEDITATION HAS BEEN ASSOCIATED WITH STRUCTURAL CHANGES IN THE BRAIN. IT CAN INCREASE THE THICKNESS OF THE PREFRONTAL CORTEX, A REGION RESPONSIBLE FOR HIGHER-LEVEL THINKING, DECISION-MAKING, & EGO.

IMPROVED ATTENTION

MINDFULNESS MEDITATION, ENHANCES ATTENTION & CONCENTRATION. IT TEACHES YOU TO FOCUS ON THE PRESENT MOMENT, WHICH CAN IMPROVE YOUR ABILITY TO STAY ATTENTIVE.

STRESS REDUCTION

MEDITATION REDUCES STRESS & THE PRODUCTION OF STRESS HORMONES LIKE CORTISOL. CHRONIC STRESS DAMAGES BRAIN CELLS & IMPAIRS COGNITIVE FUNCTION, SO, LOWERING STRESS LEVELS THROUGH MEDITATION PROTECTS BRAIN HEALTH.

ENHANCED MEMORY

SOME MEDITATION PRACTICES HAVE BEEN SHOWN TO IMPROVE WORKING MEMORY, WHICH IS CRUCIAL FOR TASKS LIKE PROBLEM-SOLVING & DECISION-MAKING. MEDITATION MAY ALSO PROTECT AGAINST AGE-RELATED MEMORY DECLINE.

EMOTIONAL REGULATION

MEDITATION HELPS WITH EMOTIONAL REGULATION BY INCREASING THE ACTIVITY IN THE BRAIN'S REGIONS RESPONSIBLE FOR MANAGING EMOTIONS. IT CAN REDUCE SYMPTOMS OF ANXIETY & DEPRESSION, LEADING TO BETTER COGNITIVE FUNCTION.

IMPROVED CREATIVITY

MEDITATION ENCOURAGES CREATIVE THINKING BY ALLOWING YOUR MIND TO EXPLORE NEW PERSPECTIVES & IDEAS. IT CAN BREAK COGNITIVE RIGIDITY & OPEN PATHWAYS TO INNOVATIVE PROBLEM-SOLVING.

COGNITIVE FLEXIBILITY

MEDITATION ENHANCES COGNITIVE FLEXIBILITY, WHICH IS THE ABILITY TO ADAPT TO CHANGING SITUATIONS & THINK OUTSIDE THE BOX. THIS IMPROVES PROBLEM-SOLVING SKILLS.

BETTER DECISION-MAKING

MEDITATION ENCOURAGES RATIONAL & THOUGHTFUL DECISION-MAKING BY PROMOTING SELF-AWARENESS & IMPULSE CONTROL.

OPTIMIZED BRAIN WAVES

CERTAIN MEDITATION PRACTICES HAVE BEEN LINKED TO CHANGES IN BRAIN WAVE PATTERNS. FOR EXAMPLE, ALPHA BRAIN WAVES ARE ASSOCIATED WITH RELAXATION & CREATIVITY. MEDITATION CAN HELP INCREASE ALPHA WAVE ACTIVITY.

NEUROPLASTICITY

MEDITATION PROMOTES BRAIN PLASTICITY, WHICH IS THE BRAIN'S ABILITY TO ADAPT & REPROGRAM ITSELF. THIS CAN AID IN LEARNING NEW SKILLS & ADAPTING TO NEW INFORMATION.

SLOWER BRAIN AGING

SOME STUDIES SUGGEST THAT MEDITATION CAN SLOW THE AGING PROCESS OF THE BRAIN, MAINTAINING COGNITIVE FUNCTION & MEMORY AS YOU GET OLDER.

Chapter 10

BREATHWORK

BREATHING EXERCISES.

STRESS CONTROL

CALMING THE NERVOUS SYSTEM

DEEP BREATHING EXERCISES, SUCH AS DIAPHRAGMATIC BREATHING OR THE 4-7-8 TECHNIQUE, ACTIVATE THE PARASYMPATHETIC NERVOUS SYSTEM, OFTEN REFERRED TO AS THE "REST & DIGEST" SYSTEM. THIS RESPONSE HELPS COUNTERACT THE STRESS RESPONSE, WHICH IS TRIGGERED BY THE SYMPATHETIC NERVOUS SYSTEM. BY ACTIVATING THE PARASYMPATHETIC SYSTEM THROUGH DEEP BREATHING, YOU CAN PROMOTE A SENSE OF CALM & RELAXATION.

REDUCTION OF STRESS HORMONES

WHEN YOU ARE UNDER STRESS, YOUR BODY RELEASES STRESS HORMONES LIKE CORTISOL. DEEP BREATHING CAN HELP LOWER CORTISOL LEVELS, REDUCING THE PHYSIOLOGICAL IMPACT OF STRESS ON YOUR BODY.

MUSCLE RELAXATION

STRESS OFTEN LEADS TO MUSCLE TENSION. DEEP, DELIBERATE BREATHING CAN PROMOTE MUSCLE RELAXATION, WHICH REDUCES PHYSICAL DISCOMFORT ASSOCIATED WITH STRESS.

IMPROVED MENTAL CLARITY

SHALLOW, RAPID BREATHING IS COMMON DURING TIMES OF STRESS, & IT CAN IMPAIR COGNITIVE FUNCTION. DEEP BREATHING INCREASES THE FLOW OF OXYGEN TO THE BRAIN, WHICH IMPROVES MENTAL CLARITY.

EMOTIONAL REGULATION

FOCUSED BREATHWORK CAN HELP YOU GAIN BETTER CONTROL OVER YOUR EMOTIONS. IT CAN PROVIDE A PAUSE BETWEEN A STRESSOR & YOUR REACTION, ALLOWING YOU TO RESPOND MORE CALMLY & THOUGHTFULLY.

MINDFULNESS

BREATHWORK IS OFTEN USED IN MINDFULNESS PRACTICES, SUCH AS MINDFULNESS MEDITATION. THESE PRACTICES ENCOURAGE YOU TO FOCUS YOUR ATTENTION ON YOUR BREATH & THE PRESENT MOMENT, REDUCING THE MENTAL CHATTER & WORRIES WHICH CONTRIBUTE TO STRESS.

ENHANCED RESILIENCE

REGULAR BREATHWORK CAN INCREASE YOUR RESILIENCE TO STRESS. IT EQUIPS YOU WITH A READILY AVAILABLE TOOL TO MANAGE STRESS WHEN IT ARISES.

SLEEP IMPROVEMENT

STRESS CAN DISRUPT SLEEP PATTERNS. RELAXATION TECHNIQUES, INCLUDING BREATHWORK, CAN PROMOTE BETTER SLEEP QUALITY BY CALMING THE MIND & BODY BEFORE BEDTIME.

Elodin Istina
@Edaryion

I know the facts in this book can be incredibly motivating. I understand, you want to make changes & adapt your life for the better & trust me when you read this: You should definitely do that & do it gradually, plan, be patient & kind with yourself.

I know these changes are all incredibly important & you keep taking damage & are nissing out on health, but impulsive change will hurt you.

Chapter 11

DATA CONSUMPTION

INFLUENCE: DATA WE
CONSUME AFFECTS US,
SHAPES OUR THOUGHTS &
THEREFORE ACTIONS.

SUGGESTED INFLUENCES

- CONTEMPLATION
- GRATITUDE JOURNALING
- SELF AFFIRMATIONS
- ED WINTERS
- JAY SHETTY
- DR. MICHAEL GREGER
- SAM BENTLEY

IT IS IMPORTANT TO
CONSUME DATA WHICH RE-
AFFIRMS SECULAR THINKING
& VIRTUES & AVOID DATA
WHICH STRENGTHENS THE
ACCEPTANCE OF EVIL, &
PROPAGANDA.

Chapter 12

TEMPERATE ASCETISM

PURE ASCETISM CAN BE
LIBERATING, BUT IT IS ALSO
UNNECESSARY & SOMEWHAT
HARMFUL. CONSUMERISM IS
EXTREMELY HARMFUL.
THIS IS THE IN-BETWEEN.

MINIMALISM

STRESS REDUCTION

MINIMALISM, BY PROMOTING SIMPLICITY & DECLUTTERING, REDUCES ENVIRONMENTAL STIMULI & LOWERS STRESS LEVELS. A MINIMALIST ENVIRONMENT IS ASSOCIATED WITH A SENSE OF CALM, PROVIDING A SANCTUARY FROM THE CHAOS EXCESS POSSESSIONS CREATE.

MENTAL CLARITY

A MINIMALIST LIFESTYLE ENCOURAGES INTENTIONAL LIVING, FOCUSING ON WHAT TRULY ADDS VALUE. THIS CLARITY OF PURPOSE & REDUCTION OF DECISION FATIGUE CONTRIBUTES TO IMPROVED MENTAL WELL-BEING. A CLUTTER-FREE SPACE OFTEN TRANSLATES TO A CLEARER, MORE ORGANIZED MIND.

FINANCIAL HEALTH

MINIMALISM INVOLVES
CONSCIOUS SPENDING &
REDUCED CONSUMERISM.
THIS FINANCIAL DISCIPLINE
LEADS TO INCREASED
SAVINGS, REDUCED DEBT, & A
MORE SECURE FINANCIAL
FUTURE. FINANCIAL
STABILITY IS CLOSELY LINKED
TO MENTAL & EMOTIONAL
WELL-BEING.

TIME MANAGEMENT

WITH FEWER POSSESSIONS &
COMMITMENTS, INDIVIDUALS
CAN ALLOCATE TIME TO
ACTIVITIES WHICH BRING JOY
& FULFILLMENT, ENHANCING
OVERALL LIFE SATISFACTION
& MENTAL HEALTH.

PHYSICAL HEALTH

WITH FEWER POSSESSIONS,
THERE IS LESS TIME &
EFFORT SPENT ON
MAINTAINING & ORGANIZING
BELONGINGS. THIS CAN FREE
UP TIME FOR PHYSICAL
ACTIVITIES, PROMOTING A
MORE ACTIVE LIFESTYLE.
ADDITIONALLY, A CLUTTER-
FREE ENVIRONMENT CAN
REDUCE THE RISK OF
ACCIDENTS & IMPROVE
OVERALL SAFETY.

IMPROVED SLEEP

A BEDROOM, FREE FROM UNNECESSARY DISTRACTIONS & CLUTTER, CAN CREATE AN OPTIMAL ENVIRONMENT FOR QUALITY SLEEP. QUALITY SLEEP IS CRUCIAL FOR PHYSICAL & MENTAL HEALTH, & A MINIMALIST APPROACH TO THE BEDROOM SUPPORTS THIS.

SOCIAL CONNECTIONS

BY FOCUSING ON MEANINGFUL RELATIONSHIPS RATHER THAN MATERIAL POSSESSIONS, YOU CAN STRENGTHEN YOUR RELATIONSHIPS. BEING PRESENT WITH LOVED ONES, ENGAGING IN EXPERIENCES, & FOSTERING DEEPER CONNECTIONS.

Chapter 13

COMPANIONSHIP

KNOWING WHEN, WHY &
WITH WHO TO INTERACT IS
THE KEY TO A HEALTHY
SOCIAL CIRCLE.

PRIORITIZING SELF-CARE

UNDERSTANDING PERSONAL NEEDS

PRIORITIZING
COMPANIONSHIP BEGINS
WITH A CLEAR
UNDERSTANDING OF YOUR
OWN EMOTIONAL, PHYSICAL,
& MENTAL NEEDS. IDENTIFY
WHAT CONTRIBUTES
POSITIVELY TO YOUR WELL-
BEING.

SETTING PERSONAL BOUNDARIES

ESTABLISH CLEAR
BOUNDARIES FOR YOURSELF.
THIS INVOLVES RECOGNIZING
YOUR LIMITS IN TERMS OF
TIME, ENERGY, & EMOTIONAL
CAPACITY. BE MINDFUL OF
WHEN TO SAY 'NO' AND WHEN
TO PRIORITIZE SELF-CARE.

REGULAR CHECK-INS

SCHEDULE REGULAR CHECK-INS WITH YOURSELF TO ASSESS YOUR OVERALL WELL-BEING. THIS SELF-REFLECTION ALLOWS YOU TO GAUGE YOUR EMOTIONAL STATE & ADJUST YOUR SELF-CARE ROUTINES ACCORDINGLY

MINDFUL ALONE-TIME

INCORPORATE TIMES OF SOLITUDE INTO YOUR ROUTINE. WHETHER IT IS READING, MEDITATING, OR ENJOYING A QUIET WALK, THESE MOMENTS CONTRIBUTE TO SELF-DISCOVERY & RECHARGE YOUR MENTAL RESOURCES.

QUALITY REST & SLEEP

PRIORITIZE SUFFICIENT &
QUALITY SLEEP.

ESTABLISHING A CONSISTENT
SLEEP ROUTINE IS A
FUNDAMENTAL ASPECT OF
SELF-CARE THAT POSITIVELY
IMPACTS BOTH PHYSICAL &
MENTAL HEALTH.

SETTING BOUNDARIES

CLEARLY COMMUNICATING NEEDS

ARTICULATE YOUR NEEDS & EXPECTATIONS TO THOSE AROUND YOU. EFFECTIVE COMMUNICATION IS ESSENTIAL FOR FOSTERING UNDERSTANDING & RESPECT IN COMPANIONSHIPS.

DEFINING LIMITS

CLEARLY DEFINE YOUR BOUNDARIES IN VARIOUS ASPECTS, SUCH AS TIME COMMITMENTS, EMOTIONAL AVAILABILITY, & PERSONAL SPACE. KNOWING & EXPRESSING YOUR LIMITS CREATES A HEALTHY FRAMEWORK FOR RELATIONSHIPS.

LEARNING TO SAY 'NO'

UNDERSTAND THAT SAYING
'NO' IS A VITAL ASPECT OF
SETTING BOUNDARIES.
IT IS NOT ABOUT REJECTING
OTHERS BUT ABOUT
RESPECTING YOUR LIMITS &
PRESERVING YOUR WELL-
BEING.

CONSISTENT SELF-CHECK

REGULARLY ASSESS WHETHER
YOUR BOUNDARIES ARE BEING
RESPECTED. IF NECESSARY,
ADJUST & COMMUNICATE
CHANGES TO MAINTAIN A
HEALTHY BALANCE IN
COMPANIONSHIPS.

EMBRACING MUTUAL RESPECT

FOSTER RELATIONSHIPS
BUILT ON MUTUAL RESPECT.
COMPANIONSHIP SHOULD
ENHANCE, NOT DIMINISH,
YOUR WELL-BEING.
ENCOURAGE OPEN
COMMUNICATION &
UNDERSTANDING IN YOUR
CONNECTIONS.

THIRST FOR POISON

QUENCHING THE IMMEDIATE THIRST

SEEKING SOCIAL VALIDATION IS AKIN TO A THIRST FOR ACKNOWLEDGMENT & ACCEPTANCE. JUST AS ONE MIGHT REACH FOR A POISONOUS SUBSTANCE TO QUENCH AN IMMEDIATE THIRST, THE DESIRE FOR VALIDATION CAN LEAD INDIVIDUALS TO TOXIC RELATIONSHIPS FOR A QUICK SENSE OF BELONGING.

IMMEDIATE GRATIFICATION

SIMILAR TO HOW POISON PROVIDES A TEMPORARY RELIEF TO THIRST, SEEKING VALIDATION FROM TOXIC INDIVIDUALS MAY OFFER IMMEDIATE GRATIFICATION. THE VALIDATION RECEIVED, EVEN IF TOXIC, CAN BRIEFLY SATISFY THE NEED FOR ACCEPTANCE.

IGNORING LONG-TERM CONSEQUENCES

IN THE PURSUIT OF SOCIAL VALIDATION, INDIVIDUALS MAY OVERLOOK THE HARMFUL EFFECTS OF SUSTAINED INTERACTION WITH TOXIC PEOPLE ON THEIR MENTAL & EMOTIONAL WELL-BEING.

NEGLECTING PERSONAL HEALTH

JUST AS CONSUMING POISON
NEGLECTS ONE'S PHYSICAL
HEALTH, SEEKING
VALIDATION FROM TOXIC
SOURCES NEGLECTS ONE'S
EMOTIONAL & MENTAL
HEALTH. IT BECOMES A
TRADE-OFF BETWEEN
MOMENTARY RELIEF & THE
OVERALL WELL-BEING.

DEPENDENCY ON EXTERNAL SOURCES

THE METAPHOR REFLECTS
THE DEPENDENCY ON
EXTERNAL SOURCES TO
FULFILL A FUNDAMENTAL
NEED. IN THIS CASE, THE
NEED FOR VALIDATION
BECOMES SO INTENSE THAT
INDIVIDUALS MAY RESORT TO
TOXIC RELATIONSHIPS,
RELYING ON THEM DESPITE
THE EVIDENT HARM.

BREAKING THE CYCLE

TO BREAK THE CYCLE, ONE MUST RECOGNIZE THE TOXICITY & CONSCIOUSLY CHOOSE HEALTHIER SOURCES OF VALIDATION. JUST AS AVOIDING POISON IS CRUCIAL FOR PHYSICAL HEALTH, DISTANCING ONESELF FROM TOXIC RELATIONSHIPS IS VITAL FOR EMOTIONAL & MENTAL HEALTH.

CHOOSING NOURISHMENT INSTEAD

SHIFTING THE METAPHOR, OPTING FOR HEALTHY SOCIAL INTERACTIONS IS AKIN TO CHOOSING NOURISHMENT OVER POISON. OPTING FOR POSITIVE, UPLIFTING RELATIONSHIPS CONTRIBUTES TO SUSTAINED EMOTIONAL WELL-BEING & PERSONAL GROWTH.

BUILDING RESILIENCE

OVERCOMING THE THIRST
FOR POISON INVOLVES
BUILDING RESILIENCE
AGAINST THE ALLURE OF
TOXIC VALIDATION.
DEVELOPING A STRONG SENSE
OF SELF-WORTH &
UNDERSTANDING THAT
VALIDATION FROM
HEALTHIER SOURCES IS MORE
FULFILLING IN THE LONG
RUN.

COMPASSION

EMPATHY IN ACTION

COMPASSION IS THE
EMBODIMENT OF EMPATHY IN
ACTION.

IT INVOLVES NOT ONLY
UNDERSTANDING OTHERS'
PAIN BUT ACTIVELY SEEKING
WAYS TO ALLEVIATE IT.

KINDNESS UNLEASHED

COMPASSION IS THE FORCE
THAT UNLEASHES ACTS OF
KINDNESS.

IT GOES BEYOND MERE
SYMPATHY, COMPELLING
INDIVIDUALS TO EXTEND A
HELPING HAND & MAKE A
POSITIVE DIFFERENCE IN
SOMEONE'S LIFE.

UNDERSTANDING WITHOUT JUDGEMENT

CENTRAL TO COMPASSION IS
THE ABILITY TO UNDERSTAND
WITHOUT PASSING
JUDGMENT.

IT ACKNOWLEDGES THE
DIVERSE EXPERIENCES OF
OTHERS & ACCEPTS THEM
WITH AN OPEN HEART.

CONNECTION THROUGH EMPATHY

COMPASSION CREATES A
PROFOUND CONNECTION BY
RECOGNIZING THE SHARED
EMOTIONS IN EVERY
INDIVIDUAL.

IT BRIDGES THE GAPS
BETWEEN US, EMPHASIZING
OUR COMMON JOYS &
STRUGGLES.

HEALING POWER

COMPASSION POSSESSES A
REMARKABLE HEALING
POWER. IT NOT ONLY HEALS
THE WOUNDS OF OTHERS BUT
ALSO CONTRIBUTES TO
PERSONAL WELL-BEING BY
FOSTERING A SENSE OF
PURPOSE &
INTERCONNECTEDNESS.

SELF-COMPASSION

INTEGRAL TO COMPASSION IS
EXTENDING THE SAME
UNDERSTANDING & KINDNESS
TO ONESELF.

SELF-COMPASSION
ACKNOWLEDGES PERSONAL
CHALLENGES & ENCOURAGES
SELF-CARE WITHOUT SELF-
JUDGMENT.

GENEROSITY OF SPIRIT

COMPASSION IS MARKED BY A
GENEROSITY OF SPIRIT.

IT PROMPTS SELFLESS ACTS,
DEMONSTRATING THAT THE
JOY OF GIVING OFTEN
SURPASSES THAT OF
RECEIVING.

TRANSFORMATIONAL FORCE

COMPASSION HAS THE
POTENTIAL TO TRANSFORM
INDIVIDUALS &
COMMUNITIES.
IT HAS THE POWER TO BREAK
DOWN BARRIERS, DISSOLVE
PREJUDICES, & CULTIVATE
ENVIRONMENTS OF
UNDERSTANDING &
ACCEPTANCE.

RESILIENCE AMIDST CHALLENGES

COMPASSION SERVES AS A
SOURCE OF RESILIENCE
DURING CHALLENGING
TIMES.

IT ENCOURAGES UNITY &
SUPPORT, REMINDING US
THAT WE ARE NOT ALONE IN
FACING LIFE'S DIFFICULTIES.

CULTIVATING COMPASSION

CULTIVATING COMPASSION
INVOLVES INTENTIONAL ACTS
OF KINDNESS, ACTIVE
LISTENING, & FOSTERING A
MINDSET OF
UNDERSTANDING.

IT IS A PRACTICE THAT, WHEN
EMBRACED, ENRICHES BOTH
THE GIVER & THE RECEIVER.

PLANNED INTERACTIONS

PURPOSEFUL INTENT

PLANNED INTERACTIONS ARE DRIVEN BY PURPOSEFUL INTENT. EACH INTERACTION IS APPROACHED WITH CLEAR OBJECTIVES, WHETHER THEY BE FOR COMMUNICATION, COLLABORATION, OR RELATIONSHIP-BUILDING.

STRUCTURED COMMUNICATION

THESE INTERACTIONS OFTEN INVOLVE STRUCTURED COMMUNICATION. CLEAR AGENDAS, DEFINED GOALS, & WELL-THOUGHT-OUT MESSAGES CONTRIBUTE TO EFFECTIVE & MEANINGFUL EXCHANGES.

GOAL ALIGNMENT

PLANNED INTERACTIONS ARE CHARACTERIZED BY ALIGNMENT WITH BROADER GOALS. WHETHER IN PERSONAL OR PROFESSIONAL CONTEXTS, THEY SERVE AS STEPPING STONES TOWARD ACHIEVING OVERARCHING OBJECTIVES.

PREPARATION & READINESS

PARTICIPANTS IN PLANNED INTERACTIONS INVEST TIME IN PREPARATION & ENSURE READINESS. THIS MAY INVOLVE RESEARCH, GATHERING RELEVANT INFORMATION, OR HONING SPECIFIC SKILLS REQUIRED FOR THE ENGAGEMENT.

TIME MANAGEMENT

A KEY ASPECT IS THE CONSCIOUS MANAGEMENT OF TIME. PARTICIPANTS ARE MINDFUL OF SCHEDULES, ENSURING THAT THE PLANNED INTERACTION IS EFFICIENT & RESPECTS THE TIME COMMITMENTS OF ALL INVOLVED PARTIES.

MUTUAL AGREEMENT

PARTICIPANTS OFTEN ENTER PLANNED INTERACTIONS WITH A MUTUAL AGREEMENT OR UNDERSTANDING. THIS AGREEMENT MAY OUTLINE SHARED EXPECTATIONS, DESIRED OUTCOMES, OR SPECIFIC CONTRIBUTIONS FROM EACH PARTY.

ADAPTABILITY & FLEXIBILITY

WHILE PLANNED, THESE
INTERACTIONS
ACKNOWLEDGE THE NEED
FOR ADAPTABILITY.

PARTICIPANTS REMAIN
FLEXIBLE, ADJUSTING THEIR
APPROACH BASED ON THE
EVOLVING DYNAMICS &
UNFORESEEN
CIRCUMSTANCES.

FEEDBACK MECHANISM

CONSTRUCTIVE FEEDBACK IS
INTEGRAL TO PLANNED
INTERACTIONS.

IT SERVES AS A VALUABLE
TOOL FOR IMPROVEMENT,
ALLOWING PARTICIPANTS TO
REFINE THEIR STRATEGIES &
ENHANCE THE
EFFECTIVENESS OF FUTURE
ENGAGEMENTS.

RELATIONSHIP BUILDING

IN VARIOUS CONTEXTS,
PLANNED INTERACTIONS
CONTRIBUTE TO
RELATIONSHIP BUILDING.
WHETHER IN PROFESSIONAL
NETWORKING OR PERSONAL
RELATIONSHIPS,
INTENTIONAL ENGAGEMENTS
FOSTER TRUST &
UNDERSTANDING.

FINDING FRIENDS

SHARED INTERESTS

SEEK OUT ACTIVITIES OR COMMUNITIES ALIGNED WITH YOUR INTERESTS. WHETHER IT IS JOINING CLUBS, CLASSES, OR ONLINE FORUMS, SHARED PASSIONS CREATE A NATURAL FOUNDATION FOR FORMING CONNECTIONS.

SOCIAL EVENTS

ATTEND SOCIAL EVENTS OR GATHERINGS WHERE PEOPLE WITH SIMILAR INTERESTS MIGHT CONGREGATE. THESE ENVIRONMENTS PROVIDE OPPORTUNITIES FOR CASUAL CONVERSATIONS & POTENTIAL FRIENDSHIPS.

VOLUNTEERING

ENGAGE IN VOLUNTEER WORK
FOR CAUSES YOU CARE
ABOUT.

THIS NOT ONLY ALLOWS YOU
TO CONTRIBUTE TO YOUR
COMMUNITY BUT ALSO PUTS
YOU IN CONTACT WITH LIKE-
MINDED INDIVIDUALS WHO
SHARE A SENSE OF PURPOSE.

OPEN COMMUNICATION

BE OPEN & APPROACHABLE IN
YOUR COMMUNICATION.

INITIATE CONVERSATIONS,
SHOW GENUINE INTEREST IN
OTHERS, & ACTIVELY LISTEN
TO CREATE A WELCOMING
ATMOSPHERE FOR POTENTIAL
FRIENDSHIPS.

WORKPLACE CONNECTIONS

FOSTER CONNECTIONS AT YOUR WORKPLACE OR EDUCATIONAL INSTITUTION. COLLEAGUES OR CLASSMATES CAN BECOME FRIENDS THROUGH SHARED EXPERIENCES & A COMMON UNDERSTANDING OF YOUR DAILY ENVIRONMENT.

ONLINE PLATFORMS

EXPLORE ONLINE PLATFORMS DESIGNED FOR FRIEND-MAKING. SOCIAL APPS, FORUMS, OR INTEREST-SPECIFIC WEBSITES CAN CONNECT YOU WITH INDIVIDUALS LOOKING TO BUILD FRIENDSHIPS.

RECOMMENDATION: VEGPAL

ATTEND CLASSES OR WORKSHOPS

ENROLL IN CLASSES OR WORKSHOPS WHICH INTEREST YOU. WHETHER IT IS A LANGUAGE COURSE, ART CLASS, OR FITNESS WORKSHOP, THESE SETTINGS PROVIDE A CONDUCTIVE ENVIRONMENT FOR MEETING NEW PEOPLE.

MUTUAL ACQUAINTANCES

LEVERAGE YOUR EXISTING SOCIAL CIRCLE. FRIENDS OF FRIENDS CAN BE EXCELLENT POTENTIAL FRIENDS. ATTEND SOCIAL EVENTS WITH ACQUAINTANCES, EXPANDING YOUR NETWORK ORGANICALLY.

COMMUNITY EVENTS

ATTEND LOCAL CULTURAL OR
COMMUNITY EVENTS.

FESTIVALS, MARKETS, OR
NEIGHBORHOOD GATHERINGS
CAN BE VIBRANT SETTINGS
FOR MEETING DIVERSE
PEOPLE & FORMING
CONNECTIONS.

BE PATIENT & PERSISTENT

BUILDING MEANINGFUL
FRIENDSHIPS TAKES TIME. BE
PATIENT, STAY PERSISTENT
IN YOUR EFFORTS, & DO NOT
BE DISCOURAGED BY INITIAL
CHALLENGES. FRIENDSHIPS
OFTEN DEVELOP GRADUALLY.

Chapter 14

NUTRITION

WHETHER YOU LIVE WITH
SICKNESS UNTIL 60, OR
YOUTHFULLY TO 130 IS
DETERMINED BY THIS.

STRICT DIETING

SIMPLICITY

STICKING TO A DIET OUR ANCESTORS EVOLVED TO BE ON IS QUITE SIMPLE. ONCE YOU KNOW WHAT IT IS, IT BECOMES EASY.

ADAPTABILITY

IT MAY BE DIFFICULT TO GIVE UP SUGAR. THIS IS BECAUSE A BODY WITH HIGH INSULIN KEEPS ASKING FOR MORE. ONCE YOUR BODY STABILIZES, YOU WILL NOT YEARN FOR THIS POISON. TASTEBUDS TAKE APPROXIMATELY 14 DAYS TO BE RENEWED. IF YOU EAT HEALTHY, IT WILL TAKE THAT LONG TO BE ABLE TO TASTE PROPER FOOD, ACCURATELY.

PSYCHOLOGY OF FOOD PRODUCTS

ADDICTION

MAJORITY OF PROCESSED FOODS ARE DESIGNED WITH A GOAL: TO HAVE THE CONSUMER CONTINUE BUYING. UNFORTUNATELY, AT THE COST OF THEIR HEALTH.

FALSE MARKETING

THESE COMPANIES USE MISLEADING & MANIPULATIVE TERMS. FOR EXAMPLE: "NATURAL" IS VAGUE. DEADLY POISONOUS MUSHROOMS ARE NATURAL. OR EVEN THE TERM 'HEALTHY' WHICH IS A 'LOOP-HOLE' IN LAW. IF IT CONTAINS ANY HEALTHY COMPONENT IT IS LAWFUL. URINE CONTAINS VITAMIN C.

VEGANISM

MORALITY

VEGANISM IS AN ETHICAL IDEOLOGY WHICH REQUIRES ITS ADHERENTS TO NOT PURCHASE PRODUCTS MADE BY DEATH & SLAVERY.

WHOLE-FOODS PLANT-BASED DIET

OUR ANCESTORS PRIMARILY ATE EAT BERRIES, NUTS, MUSHROOMS, BEANS, FRUITS, & VEGETABLES. WE HAVE THE BODIES THEY EVOLVED.

WE GAIN THE MOST & LOSE THE LEAST WITH THIS DIET. MANY PLANT-BASED FOODS HAVE ANTI-RADIATION PROPERTIES. MAKING OUR IMMUNE SYSTEMS BETTER.

DAILY DOZEN NUTRITION PLAN

IF YOU ARE NEW TO THE
PLANT-BASED WHOLE-FOODS
DIETING JOURNEY, SEARCH
FOR DR. MICHAEL GREGER'S
DAILY DOZEN NUTRITION
PLAN. IT IS A GREAT & EASY
WAY TO MAKE THE CHANGE.

LEPTIN HORMONE

APPETITE REGULATION

LEPTIN IS PRODUCED BY FAT CELLS & ACTS AS A SIGNAL TO THE BRAIN, INDICATING THE BODY'S FAT STORES. HIGHER LEPTIN LEVELS ARE ASSOCIATED WITH A SENSE OF FULLNESS, HELPING REGULATE APPETITE.

SATIETY & ENERGY BALANCE

LEPTIN PLAYS A CRUCIAL ROLE IN MAINTAINING ENERGY BALANCE. WHEN FAT STORES INCREASE, LEPTIN SIGNALS THE BRAIN TO REDUCE APPETITE, ENCOURAGING THE UTILIZATION OF STORED ENERGY.

FEEDBACK MECHANISM

LEPTIN OPERATES AS PART OF A FEEDBACK MECHANISM. IT COMMUNICATES WITH THE HYPOTHALAMUS IN THE BRAIN TO INFLUENCE FOOD INTAKE, METABOLISM, & ENERGY EXPENDITURE.

REDUCED SENSITIVITY

IN SOME CASES OF OBESITY, INDIVIDUALS MAY DEVELOP LEPTIN RESISTANCE, WHERE THE BODY'S RESPONSE TO LEPTIN IS DIMINISHED. THIS CONTRIBUTES TO PERSISTENT FEELINGS OF HUNGER & DIFFICULTIES IN WEIGHT MANAGEMENT.

GHRELIN HORMONE

STIMULATES APPETITE

GHRELIN IS PRIMARILY PRODUCED IN THE STOMACH & STIMULATES APPETITE. ITS LEVELS TYPICALLY RISE BEFORE MEALS, SIGNALING HUNGER & PREPARING THE BODY FOR FOOD INTAKE.

REGULATION OF GROWTH HORMONE

GHRELIN IS ALSO INVOLVED IN THE REGULATION OF GROWTH HORMONE RELEASE. IT INFLUENCES VARIOUS PHYSIOLOGICAL PROCESSES, INCLUDING GROWTH, METABOLISM, & BODY COMPOSITION.

CIRCARDIAN RHYTHM

GHRELIN SECRETION
FOLLOWS A CIRCADIAN
RHYTHM, GENERALLY
INCREASING BEFORE
REGULAR MEAL TIMES.
THIS RHYTHM CONTRIBUTES
TO THE ANTICIPATION &
PREPARATION FOR FOOD
INTAKE.

INFLUENCE ON FOOD REWARD

GHRELIN NOT ONLY
STIMULATES APPETITE BUT
MAY ALSO PLAY A ROLE IN THE
BRAIN'S REWARD PATHWAYS
RELATED TO FOOD.
THIS DUAL ROLE
UNDERScores ITS
SIGNIFICANCE IN THE
COMPLEX REGULATION OF
EATING BEHAVIOR.

FIBERS & WEIGHT

LEPTIN GREATLY RELIES ON FIBERS TO LET YOU KNOW WHEN YOUR BODY IS FULL. MOST PROCESSED FOODS REMOVE FIBERS FOR THIS REASON. IF YOU DO NOT FEEL FULL, YOU BUY & CONSUME MORE. FIBERS ARE ALSO NEEDED FOR VARIOUS BODILY FUNCTIONS & SYSTEMS. PLANT-BASED WHOLE FOODS CONTAIN ALL OF THE FIBERS YOU NEED. IF YOUR CONCERN IS WEIGHT, EATING THESE FOODS & REMOVING THE "NORMAL" ONES WILL IMPROVE IT.

RECIPES

YOU DO NOT NEED THEM. SIMPLY MIX VARIOUS VEGETABLES & LEGUMES IN A POT WITH WATER, BOIL IT, ADD SPICES, NUTS & WHOLE-GRAINS TO THE MIX, SLICE SOME FRUITS ON THE SIDE WITH BERRIES & YOU HAVE A SUPER-MEAL. THOUGH IF YOU FEEL LIKE YOU DO, SEE [NUTRITIONFACTS.ORG/RECIPES](https://nutritionfacts.org/recipes)

Elodin Istina
@Edaryion

I may release my own recipe book in the future, so keep an eye out! Also, avoid salt, it burns the outer layer of the liver. Your body does not need salt, it is just propaganda.

Chapter 15

MINDSTANCES

THE ABILITY TO CHANGE HOW
YOU PERCEIVE & PROCESS
REALITY BY CALLING ON A
CHOSEN LABEL.

ONENESS

MANY SAGES CALL THIS
ENLIGHTENMENT, & IT IS. I
CALL IT ONENESS. WITH
ENOUGH PRACTICE YOU CAN
CONNECT THE WHOLE
PROCESS TO ONE WORD.

DEPENDING ON YOUR
EXPERIENCE WITH
MINDFULNESS, YOU MAY BE
ABLE TO DO THIS. ONENESS
ALLOWS YOU TO PERCEIVE
EVERYTHING AS IT IS. CLOSE
YOUR EYES. BE AWARE OF
YOUR SELF. OBSERVE ONLY.

BE AWARE OF THE
ENVIRONMENT & EXPAND
THIS INFINITELY. YOU WILL
FEEL A SENSATION OF
OVERLOADING. THEN, ACCEPT
THAT ALL EXISTS IN A PLANE,
THAT THERE IS NO TIME,
ONLY THE NOW.

ONE WITH THE FLAME

MIX ONENESS WITH A SENSE
OF GENERAL IRRITATION,
ENVISION A SHARP FLAME.
THIS IS HELPFUL WHEN
NEGOTIATING IN DANGEROUS
SITUATIONS & GRANTS
ENORMOUS ADVANTAGE IN
COMBAT.

HEART OF STONE

THIS HELPS BRING PURE
CLARITY & SHUNS ALL
EMOTIONS. I LEARNED THIS
BY READING ABOUT A
CHARACTER IN A BOOK,
LEARNING THIS. 'THE NAME
OF THE WIND'. IT IS USEFUL
TO CALM YOURSELF.
PROLONGED USE CAN HAVE
NEGATIVE CONSEQUENCES.

ENVISION A VOID, THINK OF
YOURSELF AS A MACHINE.

THE END
